AACAP’s 63rd ANNUAL MEETING
OCTOBER 24–29, 2016 | NEW YORK, NY

REGISTRATION
& PROGRAM

Early Bird Deadline: September 15
Plus, save $25 by registering online at www.aacap.org/AnnualMeeting/2016

New York Hilton Midtown
& Sheraton New York Times Square Hotel
CONFERENCE ENRICHMENT PACKAGE

Attending this year’s AACAP Annual Meeting? Be sure to choose the Conference Enrichment Package when you register for a more complete conference experience.

Session recordings available in this package let you connect with education year-round so you can catch up on sessions you missed, review valuable education, and enrich your professional development long after the Annual Meeting has ended.

The Conference Enrichment Package includes:

- Full conference registration
- Session recordings with PowerPoint slides from all Symposia, Clinical Perspectives, and other programs
- Voucher for a complimentary set of recordings from one Institute
- Entry into a drawing to win free registration for the 2017 Annual Meeting in Washington, DC

Register today to take advantage of discounted pre-conference pricing.

*The purchase of this package is non-refundable. If you cancel your registration you will still be charged $179 and will receive the remaining contents of the Conference Enrichment Package. Session availability is subject to speaker permission. Session recordings do not offer CME credit.

For free samples of content please visit: AACAP.sclivelearningcenter.com

AACAP’s
63rd ANNUAL MEETING
OCTOBER 24–29, 2016 | NEW YORK, NY

AMERICAN ACADEMY OF
CHILD & ADOLESCENT
PSYCHIATRY
WWW.AACAP.ORG
On behalf of the entire Program Committee and AACAP Staff, we’re looking forward to seeing all of you at AACAP’s 63rd Annual Meeting, October 24–29, at the New York Hilton Midtown and the Sheraton New York Times Square in New York, NY!

We have a wide variety of educational and innovative sessions to offer this year. As always, the majority of our sessions are accredited for continuing medical education (CME) credit; attendees can receive up to 50 CME credits by attending the entire meeting.

As you’ve come to expect, we will continue to offer:

- Complimentary wireless internet throughout the meeting space at the Hilton and Sheraton
- The AACAP App, which not only allows you to fully navigate the meeting without paper (including electronic session evaluations), but gives you access to other AACAP information (like AACAP’s Twitter feed and Member Directory), as well
- Online tools to access a variety of meeting-related documents and plan your schedule

NEW this year, we’re offering:

- Wellness Activities: Make sure to take advantage of the yoga and meditation classes, as well as exercise in Central Park. See page 7 for details
- Outings in New York, including a Broadway show. See pages 14–15 for details
- Two free psychopharmacology lectures on Learning on Demand, available after the meeting (see the inside front cover for details about recorded content)

We are also pleased to welcome your families to New York. Please visit the Family-Friendly Activities page of the Annual Meeting website for information on fun New York activities for children and adults alike.

With important changes in the field like integrated care, excessive use of electronics, new challenges with children of undocumented immigrants and LGBT communities, as well as updated research in complementary medicine and psychopharmacology, you can’t afford to miss the Annual Meeting.

Visit www.aacap.org/AnnualMeeting/2016 for more information.

Be sure to register by September 15 to take advantage of early bird rates!

See you in New York,

Boris Birmaher, MD
James J. McGough, MD
SYSTEMS OF CARE SPECIAL PROGRAM
Meeting the Needs of Children and Youth With Complex Behavioral Health Problems in an Integrated Healthcare World

**Monday, October 24**
8:00 am–4:30 pm *(ticket)*

**Chairs:** Justine Larson, MD, MPH, Mark Chenven, MD

**Speakers:** Gregory K. Fritz, MD, Paige Pierce, Gary Blau, PhD, Ruth Stein, MD, Robert J. Hilt, MD, Lisa R. Fortuna, MD, MPH, Joyce N. Harrison, MD, Kaye L. McGinty, MD, Lisa Amaya-Jackson, MD, D. Richard Martini, MD, Terry G. Lee, MD, William Arroyo, MD, Sheryl H. Kataoka, MD

This year’s program focuses on meeting the needs of children and youth with complex behavioral and mental health problems in an integrated healthcare world. The program aims to provide child and adolescent psychiatrists (CAPs) and other mental health professionals with the knowledge, skills, and attitudes necessary to better serve children and youth with complex behavioral health problems in integrated care settings. This day-long event offers opportunities for didactic learning, as well as discussion about emerging and workable integrated care constructs. Presentations by CAPs, Substance Abuse and Mental Health Services Administration (SAMHSA), and pediatricians focus on different themes within integrated care: the needs of children and families exposed to trauma; the challenges of financing integrated care; federal initiatives in integrated care; and the pediatrician's perspective on providing behavioral health in an integrated care system. The aim of the program is to show how CAPs and all others working together on the child psychiatric care team can have positive impacts when there is a greater understanding of the evidence-base in treatment, promotion of resiliency and recovery, advancing positive ways to engage youth and families, and treating the needs of specific populations.

*Sponsored by AACAP’s Community-Based Systems of Care Committee*

---

RESEARCH SYMPOSIUM
Behavioral Neuroscience

**Tuesday, October 25**
7:00 pm–9:00 pm *(open)*

**Chair:** Moira A. Rynn, MD

**Speakers:** Nim Tottenham, PhD, Regina M. Sullivan, PhD

**Nim Tottenham, PhD,** is a developmental affective neuroscientist researching the development of the neurobiology associated with mature emotion regulation in humans. Her research has highlighted fundamental changes in amygdala-prefrontal cortex circuitry across childhood and adolescence and the powerful role that early experiences, such as caregiving, have on the developmental trajectories of these circuits. Her research uses functional magnetic resonance imaging (fMRI), behavioral, and physiological methods to examine human limbic-cortical development in children and adolescents, as well as their parents. The title of her talk is: “Development of Human Emotion Regulation Neurobiology and the Role of the Caregiver.”

**Regina M. Sullivan, PhD,** is a developmental behavioral neuroscientist researching the neurobiology of infant attachment to the caregiver to determine the neural mechanisms for the enduring mental health effects of abuse and trauma in early life. Her research has highlighted how the infant brain functions differently from the adult brain, as well as the critical role of the caregiver in modifying how the young brain responds to trauma. The title of her talk is: “Caregiver Presence Modifies Neural Networks Processing of Trauma in Infancy.”

*Sponsored by AACAP’s Research Committee and Supported by the Research Initiative*
KARL MENNINGER, MD PLENARY
A Common Struggle: A Personal Journey Through the Past and Future of Mental Illness and Addiction
Wednesday, October 26
8:00 am–9:45 am (open)
Chair: Gregory K. Fritz, MD, AACAP President
Speaker: The Honorable Patrick J. Kennedy

The Honorable Patrick J. Kennedy is a former member of the United States House of Representatives and the nation’s leading political voice on mental illness, addiction, and other brain diseases. During his 16-year career representing Rhode Island in Congress, he fought a national battle to end medical and societal discrimination against these illnesses, highlighted by his lead sponsorship of the Mental Health Parity and Addiction Equity Act of 2008—and his brave openness about his own health challenges. The son of Senator Edward “Ted” Kennedy, he decided to leave Congress not long after his father’s death to devote his career to advocacy for brain diseases and to create a new, healthier life and start a family. He has since founded the Kennedy Forum, which unites the community of mental health, and co-founded One Mind for Research, a global leader in open science collaboration in brain research. Kennedy is also the co-author of A Common Struggle, which outlines both his personal story and a bold plan for the future of mental health in America.

The Karl Menninger, MD Plenary is supported by Ronald K. Filippi, MD, in honor of his mentor, Karl Menninger, MD.

AACAP CATCHERS IN THE RYE HUMANITARIAN AWARD
Lisa Yang

The AACAP Catchers in the Rye Humanitarian Award was established in 1990 to honor those members of the general public who have made significant contributions to society through support of child and adolescent psychiatry. AACAP is honored to present the 2015 Catchers in the Rye Humanitarian Award to Lisa Yang. Ms. Yang personifies the meaning of the word humanitarian, with her many years of dedication to advocacy for mental health and people with disabilities. Ms. Yang’s passion and dedication to serve is motivated by experiences with autism in her family. She also has served on many boards, including Devereux Foundation and the McGovern Institute for Brain Research at MIT, amplifying her impact of her philanthropy in the US and globally.
**NOSHPITZ CLINE HISTORY LECTURE**

The Sense of Style: The Thinking Person’s Guide to Writing in the 21st Century

*Wednesday, October 26*

1:15 pm–2:45 pm *(open)*

**Chair:** David W. Cline, MD

**Speaker:** Steven Pinker, PhD

Steven Pinker, PhD, is an experimental psychologist and one of the world’s foremost writers on language, mind, and human nature. His research on vision, language, and social relations has won prizes from the National Academy of Sciences, the Royal Institution of Great Britain, the Cognitive Neuroscience Society, and the American Psychological Association. He has also received eight honorary doctorates, several teaching awards at the Massachusetts Institute of Technology and Harvard, and numerous prizes for his books *The Language Instinct, How the Mind Works, The Blank Slate,* and *The Better Angels of Our Nature.*

In this lecture, Dr. Pinker asks: Why is so much writing so bad, and how can we make it better? Do people write badly on purpose, to bamboozle their readers with highfalutin gobbledygook? Is the English language being corrupted by texting and social media? Should we bring back the lost art of diagramming sentences? Have dictionaries abandoned their responsibility to safeguard correct usage? Do the kids today even care about good writing? Why should any of us care? He argues that we need to rethink usage advice for the twenty-first century. Rather than moaning about the decline of the language, carping over pet peeves, or recycling spurious edicts from the rulebooks of a century ago, we can apply insights from the sciences of language and mind to the challenge of crafting clear, coherent, and stylish prose.

*Sponsored by AACAP’s History and Archives Committee and supported by David W. Cline, MD*
JAMES C. HARRIS, MD DEVELOPMENTAL NEUROPSYCHIATRY FORUM

Understanding Autism in Families: From Leo Kanner to Developmental Neurobiology

Thursday, October 27
9:00 am–11:30 am (open)
Chair: Bryan H. King, MD, Jeremy Veenstra-VanderWeele, MD
Speakers: Joseph Piven, MD, Jason Wolff, PhD

AACAP is pleased to present the inaugural James C. Harris, MD Developmental Neuropsychiatry Forum, a program that will be an annual event thanks to a generous donation from AACAP Distinguished Fellow James C. Harris, MD, and his wife Catherine DeAngelis, MD, MPH. The Forum provides the opportunity for Annual Meeting attendees to learn about cutting-edge science in this evolving subspecialty area of child and adolescent psychiatry.

This year’s Forum details the risk of autism spectrum disorder (ASD) and related traits within families. It focuses on how this familial recurrence impacts current clinical management, as well as promising avenues for future impact, including early detection of infants at high risk of ASD.

Joseph Piven, MD, is a child and adolescent psychiatrist and a leader in developmental neuropsychiatry research, including seminal work on the broad autism phenotype in families, as well as more recent work on brain development in children at high familial risk of autism spectrum disorder. Dr. Piven places family risk of autism and related traits in a historical and clinical context. He highlights Leo Kanner’s initial observations and traces his influence through later work on genetic risk, as well as research on autism traits within families. To set the stage for a discussion of developmental neurobiology, he frames the high risk of ASD in younger siblings of children with autism as both a clinical challenge and as a research opportunity.

Jason Wolff, PhD, is a rising star in developmental cognitive neuroscience using neuroimaging. His research examines trajectories of brain development in autism, links between brain development and later behavior, and potential clinical applications. Dr. Wolff describes exciting recent findings suggesting that abnormal trajectories in brain development precede an autism diagnosis in high-risk infants. Within emerging data sets, specific symptoms also map onto particular changes in brain structure or development.

During the discussion, both speakers describe how an understanding of autism within families impacts clinical practice currently, and how emerging research findings may improve future care of children with ASD and their families.

TOWN MEETING

Should AACAP’s Affiliate Member Status be Expanded to Include Psychologists?

Thursday, October 27
11:45 am–1:15 pm (members only)

The purpose of this Town Meeting is to discuss the merits of extending membership to psychologists. At the present time, many of our peer organizations include psychologists as affiliate members. Child psychiatrists as interdisciplinary professionals already collaborate with psychologists in our clinical, academic, and research activities. Psychologists are frequent and consistent contributors to our annual meetings, JAACAP, and our clinical practices. Furthermore, the changing health care environment calls for increasing collaboration between interdisciplinary professionals. In this meeting, we discuss the benefits and potential disadvantages of inviting psychology membership in AACAP.
Thomas F. Anders, MD, graduated from Stanford University and Stanford University School of Medicine prior to completing a rotating internship at Mount Sinai Hospital in New York and one year of pediatric residency at Children’s Hospital Medical Center in Boston. Drafted into the United States Air Force, he served for two years as a flight surgeon and United States Air Force pediatrician. He then completed psychiatry training at Columbia Presbyterian Medical Center in New York. A two-year post-doctoral research fellowship and two years of faculty appointment at AECOM/Montefiore Hospital preceded his appointment as Director of the Division of Child Psychiatry at SUNY Buffalo. He has also headed Divisions of Child and Adolescent Psychiatry at Stanford University and Brown University. He joined the faculty of University of California, Davis as Department of Psychiatry Chair and then as Executive Associate Dean.

His long-standing clinical and research interests are in the areas of maturation of infant sleep-wake states and pediatric sleep disorders in children with autism spectrum disorder. He has been a National Institutes of Health (NIH)-funded investigator and served as President of the American Academy of Child and Adolescent Psychiatry (2005–2007).

Kelly J. Kelleher, MD, is Professor of Pediatrics, Psychiatry, and Public Health in the Colleges of Medicine and Public Health at The Ohio State University, Vice President of Community Health and Services Research at Nationwide Children’s Hospital, and Center Director in the Center for Innovation in Pediatric Practice at The Research Institute at Nationwide Children’s Hospital in Columbus, Ohio. He is a pediatrician and health services researcher focused on improving policy for, and the practice of, pediatric care for high risk children adversely affected by poverty, violence, neglect, alcohol, drug use, or mental disorders. He serves or has served on several committees for the National Academy of Medicine and the American Academy of Pediatrics.

In his lecture, Dr. Kelleher explores how the radical transformation of the child healthcare system, generally and pediatrics specifically, is largely being driven by economic pressures. These pressures, combined with large scale consolidation and technology disruption, are also creating opportunity to develop population health systems. Under the title of “value-based purchasing,” population health goals and efficiencies are altering the structure of routine pediatric care. Behavioral issues are emerging as the most important factors in both outcomes and costs for large networks. Child psychiatry research, policy, and practice have the potential to greatly influence the shape of large networks caring for U.S. children, but only with considerable re-shaping of practice, assertive leadership from the field, and a developmental perspective on the family and child in neighborhoods.

The Lawrence A. Stone, MD Plenary is named in honor of AACAP Past President and Life Fellow, Lawrence A. Stone, MD. It recognizes his leadership, vision, and passion for the mission of AACAP. Mrs. Marnette Stone endowed this plenary in loving tribute to her husband.
In an effort to encourage the personal good health and wellness of our own AACAP members, the Program Committee is infusing a wellness theme into AACAP’s Annual Meeting this year. Special activities include:

- A morning run, walk, and bike in Central Park
- Yoga classes each morning
- Meditation classes each afternoon/evening
- Scientific CME sessions on wellness for your patients
- Healthier food selections at our special events

We hope attendees take advantage of these opportunities to improve their own wellbeing. These events are open to all attendees and their spouse/significant other.

**Meditation Class**

**Tuesday, October 25**
4:30 pm–5:15 pm

Meditation sessions will last for 45 minutes at the end of each day. There will be a 30-minute practice with various techniques of focusing the mind. Time will also be given to discussing meditation postures, barriers to meditation, and cultivation of a personal practice. These meditation sessions are designed for all levels of practice.

**Yoga Class**

**Wednesday, October 26**
6:30 am–7:30 am

Sivananda Yoga is a classical approach to the practice of yoga. Classes consist of physical yoga postures, breathing exercises, and relaxation techniques. Classes are designed for all levels of practices from beginner to advanced. All are welcome, but space is limited and will be on a first-come, first-served basis. Mats will be provided.

**Walk in Central Park**

**Wednesday, October 26**
6:30 am–7:30 am

Join Angel A. Caraballo, MD, President of the New York Regional Council on Child and Adolescent Psychiatry, as well as member of AACAP’s Program Committee and Local Arrangements Committee, along with fellow meeting attendees for a brisk walk through Central Park to start your day off on the right foot! Meet in the Lobby of the New York Hilton Midtown at 6:30 am.

**Symposium 12: Health Prevention and Promotion: More Than Common Sense?**

**Wednesday, October 26**
10:00 am–1:00 pm

**Meditation Class**

**Wednesday, October 26**
6:30 pm–7:15 pm

**Yoga Class**

**Thursday, October 27**
6:30 am–7:30 am

**Bike Ride in Central Park**

**Thursday, October 27**
6:30 am–7:30 am

Join JAACAP Editor-in-Chief Andrés Martin, MD, MPH, for a bike ride in Central Park as Dr. Martin prepares for his cross-country ride in 2017 for Break the Cycle. Meet in the Lobby of the New York Hilton Midtown at 6:30 am. AACAP will provide up to 30 bikes complimentary on a first-come, first-serve basis.

**Clinical Perspectives 27: TED Talks Meet Perspectives: (Clinical) Ideas Worth Spreading**

**Thursday, October 27**
2:00 pm–5:00 pm

**Meditation Class**

**Thursday, October 27**
5:30 pm–6:15 pm

**Yoga Class**

**Friday, October 28**
6:30 am–7:30 am

**Run in Central Park**

**Friday, October 28**
6:30 am–7:30 am

Join Douglas K. Novins, MD, JAACAP Editor-Elect, and your fellow attendees for a run in Central Park and start your day off right! Meet in the Lobby of the New York Hilton Midtown at 6:30 am.

**Workshop 26: CARING at Columbia Head Start: Promoting Resilience Through Creative Art and Play and a Prevention Model for At-Risk Preschool Children and Families**

**Friday, October 28**
8:30 am–11:30 am

**Workshop 36: The Buddha in Therapy: Integrating Mindfulness Into the Treatment of Children, Adolescents, and Their Families**

**Friday, October 28**
1:30 pm–4:30 pm

**Meditation Class**

**Friday, October 28**
7:00 pm–7:45 pm

**Yoga Class**

**Saturday, October 29**
6:30 am–7:30 am
AACAP President Gregory K. Fritz, MD, is focusing on integrated care for his two-year presidential initiative. Part of that initiative involves educating child and adolescent psychiatrists about models for integrated care and how best to collaborate with others in primary or specialty medical care. Here is a sampling of the programs on AACAP’s Annual Meeting schedule dedicated to this topic.

**Systems of Care Special Program: Meeting the Needs of Children and Youth With Complex Behavioral Health Problems in an Integrated Healthcare World**

(see page 2)

**Monday, October 24**
8:00 am–4:30 pm (ticket)

Chair: Justine Larson, MD, MPH, Mark Chenven, MD

Speakers: Gregory K. Fritz, MD, Paige Pierce, Gary Blau, PhD, Ruth Stein, MD, Robert J. Hilt, MD, Lisa R. Fortuna, MD, MPH, Joyce N. Harrison, MD, Kaya L. McGinty, MD, Lisa Amaya-Jackson, MD, D. Richard Martini, MD, Terry G. Lee, MD, William Arroyo, MD, Sheryl H. Kataoka, MD

Sponsored by AACAP’s Community-Based Systems of Care Committee

**Clinical Perspectives 4:**
The Integrative Child and Adolescent Psychiatrist: Novel Models of Perinatal Mental Health Care to Improve Maternal-Infant Outcomes

**Tuesday, October 25**
9:00 am–12:00 pm (open)

Chair: Celeste St. John-Larkin, MD

Discussant: Kimberly Kelsay, MD

Speakers: Anilla Del Fabbro, MD, Rhapsody Mason, LCSW, Diane M. Misch, MD, Jennifer Paul, PhD, Celeste St. John-Larkin, MD

Sponsored by AACAP’s Infant and Preschool Committee

**Karl Menninger, MD Plenary: A Common Struggle: A Personal Journey Through the Past and Future of Mental Illness and Addiction**
(see page 3)

**Wednesday, October 26**
8:00 am–9:45 am (open)

Chair: Gregory K. Fritz, MD

Speaker: The Honorable Patrick J. Kennedy

**Clinical Perspectives 12:**
Pediatric Medicine Updates for the Child Psychiatrist: Headache, Concussion, and Child Physical Abuse

**Wednesday, October 26**
10:00 am–1:00 pm (open)

Chairs: Kristi Kleinschmit, MD, Mary T. Gabriel, MD

Speakers: David W. Dunn, MD, Pam Esperanza, MD, Kelly Irons, MD

Sponsored by AACAP’s Physically Ill Child Committee, Training and Education Committee, and Triple Board and Post Pediatric Portal Programs Committee

**Workshop 27: Collaboration With Primary Care: Developing Clinical Skills and Overcoming System Challenges**

**Wednesday, October 26**
3:00 pm–6:00 pm (ticket)

Chair: Barry Sarvet, MD

Speaker: L. Read Sulik, MD

Sponsored by AACAP’s Committee on Collaboration With Medical Professions and Healthcare Access and Economics Committee

**Clinical Perspectives 26:** Life Members Wisdom Clinical Perspectives on Integrated Care, Health, Resilience, and the Future of Child and Adolescent Psychiatry

**Thursday, October 27**
2:00 pm–5:00 pm (open)

Chair: Douglas A. Kramer, MD, MS

Discussants: Marilyn B. Benoit, MD, Warren Y.K. Ng, MD

Speakers: Margaret Cary, MD, MPH, Gregory K. Fritz, MD, James J. Hudziak, MD, Michelle L. Rickerby, MD

Sponsored by AACAP’s Family Committee and Life Members Committee

**Symposium 29:** Simon Wile Symposium: Screening, Adhering, and Dying: A Collaboration With Subspecialty Pediatrics

**Thursday, October 27**
2:00 pm–5:00 pm (open)

Chair: Sourav Sengupta, MD, MPH

Speakers: Beth A. Smith, MD, Eyal Shemesh, MD, David Buxton, MD, L. Read Sulik, MD

Sponsored by AACAP’s Committee on Collaboration With Medical Professions

Go Online to View Full Program

[www.aacap.org/AnnualMeeting/2016](http://www.aacap.org/AnnualMeeting/2016)
Working Together in 21st Century Pediatrics: Collaborative Care in Action with Experts in Anxiety and Depression

Thursday, October 27
6:00 pm–10:00 pm (ticket)
Chair: Rachel Zuckerbrot, MD
Speakers: Boris Birmaher, MD, Diane Bloomfield, MD

Come hear internationally renowned child psychiatrist Boris Birmaher, MD discuss depression and anxiety with helpful practical advice from pediatrician Diane Bloomfield, MD on how to manage these issues in a busy pediatric practice. Pediatricians are divided into small groups and participate in case-based learning moderated by an expert pediatrician and an expert child psychiatrist. Participating child psychiatrists have the opportunity to observe collaborative office round learning and learn how to facilitate such group-based discussion. Building on the case-based discussion, the expert team demonstrates a simulated call to the New York State CAP PC hotline where child psychiatrists provide free phone consultation to pediatric primary care providers. This demonstration shows pediatricians the benefits of such a line and child psychiatrists how they may provide such consultation in their own settings.

Symposium 34: Community Crisis and Community Resilience: The Children of Flint, Michigan

Friday, October 28
8:30 am–11:30 am (open)
Chairs: Sheila M. Marcus, MD, Dayna LePlatte, MD
Speakers: Anne Kramer, MSW, Dayna LePlatte, MD, Lauren O’Connell, MD, MSC
Sponsored by AACAP’s Infant and Preschool Committee

Special Interest Study Group 8: Integrating Clinical Pathways into the Management of Psychiatric Disorders Within Pediatric Settings

Friday, October 28
5:00 pm–6:30 pm (ticket)
Chairs and Speakers: Lisa B. Namerow, MD, Khyati Brahmbhatt, MD, Nasuh Malas, MD, MPH, Tyler Pirlot, MD, Claire M. De Souza, MD, Ilana Waynik, MD
Sponsored by AACAP’s Physically Ill Child Committee

Institute 8: Practical Pediatric Psychopharmacology for the Primary Care Practitioner and Early Career Psychiatrist (see page 11)

Saturday, October 29
8:30 am–4:00 pm (ticket)
Chair: Adelaide S. Robb, MD
Speakers: Boris Birmaher, MD, Adelaide S. Robb, MD, Martine M. Solages, MD, John T. Walkup, MD, Timothy E. Wilens, MD
Sponsored by AACAP’s Research Committee

Workshop 38: How to Succeed or Fail in Implementing an Integrated Pediatric Behavioral Health Program

Saturday, October 29
8:30 am–11:30 am (ticket)
Chair: Rahil Briggs, PsyD
Speakers: Diane Bloomfield, MD, Jason Herrick, MD, Susan Weinstein, MD
Institutes are among the most popular Annual Meeting programs because they give a comprehensive and authoritative overview of a topic area in a full-day program. They are a great way to learn the latest in research and clinical practice in a specific area of child and adolescent psychiatry. Be sure to purchase your Institute tickets when you register as they often sell out!

**Institute 1: Psychopharmacology Update: Focus on Refractory Cases and Longer Term Outcomes**

**Tuesday, October 25**

8:00 am–5:15 pm *(ticket)*

Chair: Timothy E. Wilens, MD

**Presenters:** Robert L. Findling, MD, MBA, Gagan Joshi, MD, Jeffrey R. Strawn, MD, Karen Dineen Wagner, MD, PhD, Melissa P. DelBello, MD, MS, Kevin M. Gray, MD

Over the past two decades, there has been a rapidly increasing interest in the pharmacotherapeutics and the important role they play in the treatment of children and adolescents with mental illnesses. Introductory pharmacotherapy institutes are helpful in orienting clinicians to first-line treatments; however, clinicians often face complicated cases requiring more advanced psychopharmacology, including monotherapy of novel agents or combined medication strategies. This Institute provides the clinician a higher level of understanding in the use of medications in general and, in particular, in refractory or more complicated children and adolescents with psychopathology. Presentations cover the application of fundamental principles of pharmacotherapy with a focus on difficult cases and an emphasis on longer-term outcomes. Recent pharmacotherapy data is presented where available.

*Sponsored by AACAP’s Pediatric Psychopharmacology Committee*

**Institute 2: Research Institute: Epigenetics in Child and Adolescent Psychiatry**

**Tuesday, October 25**

8:00 am–5:15 pm *(ticket)*

**Chairs:** Jean A. Frazier, MD, Jeremy Veenstra-VanderWeele, MD

**Presenters:** Stacy S. Drury, MD, Frances A. Champagne, PhD, Catherine Monk, PhD, Schahram Akbarian, MD, Amir Levine, MD, Jay A. Gingrich, MD

Child and adolescent psychiatry research requires the use of diverse techniques, from epidemiology to molecular genetics to neuroimaging to clinical trials. In the past few years, advances in sequencing technologies have made epigenetic research more approachable. Epigenetic factors are defined as all that resides “above genetics.” These factors clearly make a major contribution to child and adolescent developmental outcomes. This Institute, which is designed for researchers, provides an overview of epigenetic mechanisms and a discussion of the integration of epigenetics into child and adolescent psychiatry research. Attendees gain understanding of the basic epigenetic mechanisms that connect environmental experience with outcomes and learn how physician-scientists and clinical researchers have integrated epigenetic approaches into their research.

*Sponsored by AACAP’s Research Committee and Supported by the Research Initiative*

**Institute 3: Eating Disorders in Children, Adolescents, and Young Adults**

**Wednesday, October 26**

10:00 am–6:00 pm *(ticket)*

**Chairs:** Siham Muntasser, MD, Maria C. La Via, MD

**Presenters:** Janet Treasure, MD, James Lock, MD, MPH, Jennifer L. Derenne, MD, Siham Muntasser, MD, Guido K. Frank, MD, Eliana Perrin, MD

The steady increase in the prevalence of eating disorders in children and adolescents since the 1950s makes it critically important that child and adolescent psychiatrists and mental health professionals be familiar with early detection and appropriate management of these disorders. The fact that eating disorders are associated with many other mental illnesses and have the highest death rate of all mental illnesses, many of those deaths by suicide, emphasizes the importance of increasing community awareness and understanding of these disorders. In this Institute, evidence-based education is provided on best practices for the identification, evaluation, and management of eating disorders in children, adolescents, and young adults. Learn to recognize the signs of an eating disorder; dispel the myths surrounding eating disorders as a voluntary, willful act; and understand the importance of interdisciplinary care in the management of young patients with eating disorders.

**Institute 4: Lifelong Learning Institute: Module 13: Relevant Clinical Updates for Child and Adolescent Psychiatrists**

**Thursday, October 27**

7:30 am–5:00 pm *(ticket)*

**Chairs:** Sandra B. Sexson, MD, Andrew T. Russell, MD

**Presenters:** Joan Luby, MD, Linmarie Sikich, MD, Timothy E. Wilens, MD, Stephen J. Cozza, MD, David A. Brent, MD, Bryan H. King, MD, John T. Walkup, MD

This year’s Lifelong Learning Institute highlights Module 13, which provides a review of the latest relevant literature available on a broad range of issues and disorders affecting children and their families. Topics covered include literature on ADHD, autism, bipolar disorder, depression, developmental disorders, eating disorders, military issues, and psychotic disorders, just to name a few. This Institute is designed for all child and adolescent psychiatrists who are working on Maintenance of Certification, as well as anyone who wants to keep current with important issues in the field.

*Sponsored by AACAP’s Lifelong Learning Committee*
Institute 5: Managing Suicide and Violence Risk While Building Resilience: Practical Applications in Clinical, School, and Community Settings  
**Thursday, October 27**  
8:00 am–5:00 pm *(ticket)*  
**Chairs:** Jeffrey I. Hunt, MD, Howard Y. Liu, MD  
**Discussants:** Shashank V. Joshi, MD, Matthew G. Biel, MD, MSC  
**Presenters:** Deborah M. Weisbrot, MD, David A. Brent, MD, Allan K. Chrisman, Jess P. Shatkin, MD, Alan Schlechter, Sharon H. Stephan, PhD  
Student suicide and school-related violence occur daily across this country. Managing risk and building resilience in patients continues to be of pressing importance to child and adolescent psychiatrists and other mental health professionals who often are asked to evaluate students who are identified as having some level of risk for suicide or violence. This Institute emphasizes the importance of prevention, strength-based approaches, and building resilience. Presenters with extensive experience assessing and managing risk in individuals, in schools, and within larger communities describe strategies to identify, understand, and manage risk in patients who make threats of violence or self injury, and describe the best practices in response to community and school-based trauma caused by violence and suicide.  
*Sponsored by AACAP’s Disaster and Trauma Issues Committee, Schools Committee, and Training and Education Committee*  

Institute 6: Evidence-Based Assessment for Child and Adolescent Psychiatry: Better Tools for Better Decisions and Outcomes  
**Friday, October 28**  
8:00 am–3:15 pm *(ticket)*  
**Chairs:** Cathryn A. Galanter, MD, Eric Youngstrom, PhD  
**Discussants:** Peter S. Jensen, MD  
**Presenters:** Prudence W. Fisher, Kelly Posner, PhD, Graham J. Emslie, MD, Jon McClellan, MD  
The knowledge, tools, and interactive process presented in this Institute provide child and adolescent psychiatrists with practical, low-cost methods of implementing evidence-based assessment in their practice settings, thus improving consistency and accuracy of diagnosis. The tracking and monitoring strategies discussed boost effectiveness of interventions and provide a safety net for more rapid detection and management of adverse events. Participants gain knowledge of evidence-based assessment tools, including diagnostic interviews and rating scales; learn the rationale for implementing evidence-based assessment, including data on improved outcomes; are introduced to model programs where evidence-based assessment has been implemented; and learn to develop evidence-based assessment implementation plans for their practice setting.  
*Sponsored by AACAP’s Autism and Intellectual Disability Committee*  

Institute 7: Autism Spectrum Disorder Update: Screening, Assessment, Genetics, and Multidisciplinary Treatment  
**Friday, October 28**  
8:00 am–5:00 pm *(ticket)*  
**Chairs:** Gagan Joshi, MD, Alice R. Mao, MD  
**Presenters:** Bryan H. King, MD, Rebecca Muhle, MD, PhD, McLeod F. Gwynette, MD, Roma A. Vasa, MD, Jeremy Veenstra-VanderWeele, MD  
Clinicians are frequently asked to evaluate children with social interaction and communication problems, odd behaviors, or emotional and behavioral difficulties. This Institute provides child and adolescent psychiatrists fundamental information on how to diagnose and treat children and adolescents with autism spectrum disorder. Presentations include data on prevalence, a review of diagnostic criteria, clinical assessment, genetic work-up, and current evidence-based treatment options. Possible comorbid mental health conditions are identified and discussed as considerations when treating individuals with autism spectrum disorders. Current psychopharmacological, educational, psychotherapeutic, and behavioral options for intervention are reviewed. Awareness of the multiple domains autism spectrum disorder treatment can encompass helps child and adolescent psychiatrists to develop a realistic treatment plan.  
*Sponsored by AACAP’s Autism and Intellectual Disability Committee*  

Institute 8: Practical Pediatric Psychopharmacology for the Primary Care Practitioner and Early Career Psychiatrist  
**Saturday, October 29**  
8:30 am–4:00 pm *(ticket)*  
**Chair:** Adelaide S. Robb, MD  
**Presenters:** Timothy E. Wilens, MD, Boris Birmaher, MD, John T. Walkup, MD, Martine M. Solages, MD  
This Institute provides practical information to early career psychiatrists and primary care clinicians on the use of psychotropic medications, introducing them to the basics that enable them to responsibly use these medications for common pediatric mental health disorders including attention-deficit/hyperactivity disorder, anxiety disorders, depressive disorders, bipolar disorder, psychotic disorders, and aggression in autism spectrum disorder. Awareness of recent research and the application of practical clinical information pertaining to pediatric psychopharmacology are combined to help early career psychiatrists and primary care physicians identify key mental health disorders as they present in the office, as well as increase their comfort level in treating common childhood psychiatric disorders with pharmacotherapy.  
*Sponsored by AACAP’s Psychopharmacology Committee*

Hotel Information
Rooms are selling quickly at the New York Hilton Midtown and Sheraton New York Times Square hotels, so don’t wait to book! The New York Hilton Midtown and Sheraton Times Square are located one block away from each other and educational events take place at both hotels. Conveniently located in the heart of Midtown Manhattan, the hotels are just steps from the excitement of Broadway theatres, prestige of Carnegie Hall, and world-class shopping on Fifth Avenue.
Rates at the New York Hilton Midtown and Sheraton New York Times Square hotels are $375 single/double per night + tax.
It is likely that hotel rooms will be sold out by October, so don’t wait; book your room today!

Two different ways to make reservations:
1 Phone: Call the hotel directly and ask for AACAP’s 2016 Annual Meeting Rate.
2 Online: Visit www.aacap.org/AnnualMeeting/2016/hotel and click on the link next to either hotel.

Hotel Policies
• This rate is available until Monday, October 3, or until the group block sells out, whichever comes first.
• A deposit of one night’s stay is required to hold each individual’s reservation. Such deposit shall serve to confirm the reservation for the date(s) indicated and, upon check-in. This deposit is refundable if notice is received by September 15, 2016, and a cancellation number is obtained.

New York Hilton Midtown
1335 Ave of the Americas
New York, NY 10019
Phone: 212.586.7000
Check-in is at 3:00 pm
Check-out is at 12:00 pm

Sheraton New York Times Square
811 7th Ave, W 53rd St.
New York, NY 10019
Phone: 212.581.1000
Check-in is at 3:00 pm
Check-out is at 12:00 pm

All room rates are quoted exclusive of applicable state and local taxes, currently 14.75%, as well as $3.50 for New York City Occupancy Tax and Convention Center fee. All taxes are subject to change.

Group Hotel Reservations
If you need to reserve ten or more sleeping rooms, please contact Jill Brafford at 202.966.7719 or jbrafford@aacap.org to make separate arrangements.

What members of the Local Arrangements Committee say about their home town . . .

Scott M. Palyo, MD:
I ♡ NY because New York is a fantastic city and its diversity makes it appealing to everyone. Whatever your interests—food, parks, theatre, music, art, shopping, people watching—New York has it all. Our subway system (as well as the easy access to cabs and Uber drivers) makes it easy to get to wherever you want to go. Besides the newer sites such as One World Trade Center, New Museum, and the Highline, there is also much to see in the other boroughs. Feel free to explore; there is always something to see wherever you end up.

Annie Li, MD:
I ♡ NY because it is the city where I live and work, where people are rich with stories waiting to be shared, and where I can go and satisfy my international food cravings without having to get on an airplane. NY has the best soup dumplings in Chinatown (Shanghai Garden on Mott Street), best Japanese katsu dish (Hama Katsu on West 47th Street), best pizza pie (Grimaldi’s), and best NY burger chain (Shake Shack) just to name a few. It is also a child-friendly city where I can take my daughter on the weekends to feed goats at the Central Park Zoo, ride a carousel underneath the Brooklyn Bridge, and drive a bus at the NY Transit Museum.

Gabrielle L. Shapiro, MD:
I ♡ NY because of its energy and multicultural identity. New York has something for everyone and the best of everything!
Special thanks to Larry Greenhill, Scott Palyo, and the whole Local Arrangements Committee for coordinating a variety of events highlighting New York City's unique flavor!

Laurence L. Greenhill, MD
Local Arrangements Chair

Scott M. Palyo, MD
Local Arrangements Chair

**CLINICAL PRACTICUM 1**

Integrating Mental Health, Substance Use, and Educational Services in High Risk Adolescents

**Tuesday, October 25**

9:00 am–5:00 pm (ticket, members only)

**Location:** Mount Sinai St. Luke’s Hospital

The goal of this Clinical Practicum is to familiarize the participants with the clinical practices at the Comprehensive Adolescent Rehabilitation and Education Service (CARES), which provides services for adolescents with high-risk for self-harm behaviors, frequent hospitalizations, escalating substance use, and school drop-outs. This is achieved through a series of lectures by leaders in the fields of public education and translational and clinical psychiatric research, as well as the clinicians at CARES. Additional activities include presentations by CARES teachers, a motivational interviewing interactive workshop, and the opportunity for the attendees to meet and speak with CARES patients. Taken together, these activities provide a diverse and highly informative experience and knowledge in relation to the management of high-risk adolescents with severe psychopathology, chronic suicidality, persistent substance use, and educational delays.

*Sponsored by AACAP’s Local Arrangements Committee and Substance Abuse and Addiction Committee*

**CLINICAL PRACTICUM 2**

Intensive Outpatient Care: Decreasing Risk and Promoting Rapid Recovery

**Thursday, October 27**

9:00 am–5:00 pm (ticket, members only)

**Location:** Child Mind Institute

The objective of this Practicum is to learn about four novel intensive outpatient programs that are currently in use at the Child Mind Institute (CMI). The presentation includes detailed program information about intensive services that have been developed for children and adolescents in four areas: obsessive-compulsive disorder, selective mutism, behavior disorders, and dialectical behavior therapy. Clinicians from CMI present on program design and development, program implementation, and clinical material and outcomes from actual patient interventions. While many of the intensive interventions are designed for individual patients, CMI also presents case material from group-based intensive programs that they have developed, i.e., Brave Buddies™ for selective mutism. Evidence-based interventions can be adapted to be used in intensive outpatient treatment programs that can result in rapid stabilization of symptoms that might otherwise require a higher level of care.

*Sponsored by AACAP’s Local Arrangements Committee*

**RESEARCH PRACTICUM**

Research Career Development for Trainees and Junior Faculty

**Friday, October 28**

9:00 am–5:00 pm (ticket, members only)

**Location:** Columbia University

The objective of the Research Practicum is to provide hands on mentorship, guidance, and feedback to residents, fellows, and junior faculty pursuing a career in research in the field of child and adolescent psychiatry or psychology. This day-long program consists of two parts. The first half of the day starts with an opening session that provides an update on the National Institute of Mental Health’s (NIMH) strategic plan and funding priorities. This is followed by break out groups led by nationally recognized senior to mid-level research faculty from a range of academic child and adolescent psychiatry research programs. Topics to be covered include career development, identifying mentors, specific gender and underrepresented minority issues, and work-life balance. Participants are encouraged, but not required, to prepare and bring an abstract summary of his or her current research ideas or a K-award submission. This provides the foundation for the second half the day where participants are assigned to an appropriate senior faculty member to discuss and review their program of research. The day concludes with a networking session for all attendees.

*Sponsored by AACAP’s Research Committee*

---

**What does everyone think of when they come to New York City? Broadway!** AACAP has organized a night out to enjoy a Broadway show, but with a twist . . .

**Broadway Show & Talkback With the Cast**

**Tuesday, October 25**

7:00 pm

**Cost of show:** $82.00 (includes facility fee and talkback.) This ticket is available with general registration starting on August 1 for members and August 8 for non-members.

Join a group of AACAP attendees to view the Tony Award-winning *Matilda The Musical* this year in NYC! The musical is held at the Shubert Theatre, which is within walking distance from the New York Hilton Midtown. Your ticket also includes participation in a Talkback, which is an intimate, up-close and personal, moderated discussion with select members of the cast and directors after the show. This incredible experience is a special end to your evening and provides memories that will last a lifetime! Make sure to purchase your tickets with registration by August 19 in order to secure a spot within AACAP’s seating area (located in front mezzanine of the theatre) and to participate in the talkback.

*Matilda The Musical* is the story of an extraordinary girl who dreams of a better life. Armed with a vivid imagination and a sharp mind, Matilda dares to take a stand and change her own destiny.

*Sponsored by AACAP’s Annual Meeting Committee*
AACAP’s Annual Meeting is the perfect place to network with your colleagues. Below are some of the best ways to do so throughout the week!

**Networking For International Attendees**

**Tuesday, October 25**

5:30 pm–7:00 pm *(by invitation only)*

AACAP would like to welcome all of our attendees who traveled near and far from other countries to attend AACAP’s Annual Meeting! Join us in the Trianon Ballroom on the Third Floor of the New York Hilton Midtown to network with other attendees from your home country or those nearby! *Badges are required for admission.*

**Welcome Reception**

**Wednesday, October 26**

6:00 pm–7:30 pm *(open)*

Meet your colleagues at the Welcome Reception in the Grand Ballroom on the Third Floor of the New York Hilton Midtown and join your fellow registrants as we kick off AACAP’s 63rd Annual Meeting!

Enjoy light refreshments and music by AACAP’s own Pink Freud and the Transitional Objects.

Make sure to stop by Registration and purchase your NEW Pink Freud & the Transitional Objects t-shirt! *Badges are required for admission.*

**Receptions/Reunions**

AACAP’s Annual Meeting is an opportunity to reconnect and network with your colleagues and friends. Any university or regional council is welcome to host a reception or reunion on Thursday, October 27. AACAP assigns your group a complimentary room at the New York Hilton Midtown or the Sheraton New York Times Square, and the host of the reception is responsible for all other costs. For more information or to request space, please email meetings@aacap.org.

**Visit the Headshot Booth in Americas Hall I and receive a complimentary headshot by a professional photographer! You will even get to leave the meeting with your headshot on a flash drive! They are located at booth 1802.**

*Sponsored by Tris Pharma, Inc.*

**Hours:**

**Wednesday, October 26**

10:00 am–5:00 pm

**Thursday, October 27**

10:00 am–4:00 pm

**Friday, October 28**

9:00 am–12:30 pm

**Location:** Americas Hall I & II on the Third and Fourth Floors of the New York Hilton Midtown.

With over 80 booths to visit, the Exhibit Hall is the place to be to learn about the latest and greatest in child and adolescent psychiatry. The exhibitors at the meeting include, but are not limited to, associations, pharmaceutical companies, publishers, recruiters, and treatment centers.

While you are visiting the exhibits, don’t forget to stop by the New Research Poster Session in Americas Hall II. The Exhibit Hall is also a great place to meet up with colleagues and explore what new products and opportunities are available on the show floor. With 5,000 attendees roaming through the Exhibit Hall, you will find someone you know!

**NEW This Year!**

*For complete details and to register online, visit [www.aacap.org/AnnualMeeting/2016](http://www.aacap.org/AnnualMeeting/2016).*
Mentorship Programs
AACAP’s Annual Meeting has over ten hours of mentorship opportunities for medical students, residents, and early career psychiatrists and is the best place to plan for the next stage in your career. Don’t miss your chance to connect with other child and adolescent psychiatrists who could serve as advisors for a lifetime! Visit www.aacap.org/AnnualMeeting/2016 for a listing of all of the activities just for these groups.

Committee Meetings
Joining an AACAP committee is the perfect way to get involved with AACAP, and with over 60 committees, there is something for everyone! All committees meet at AACAP’s Annual Meeting, and this is the perfect opportunity to engage with the committee chairs and members to see if they are the committee for you. If you are interested in becoming a member of a committee, please visit www.aacap.org/committees for a complete listing of committees and their charges, the most recent annual report, and chair contact information. To be considered for appointment to an AACAP committee, please send an email of interest along with your CV to gfritz@aacap.org. If you have questions about this process, please contact Megan Levy at mlevy@aacap.org. Committee meetings are open to all AACAP members, unless otherwise noted.

Monitors
Medical Students, Residents, and Trainees Attend AACAP’s Annual Meeting for FREE!
Monitors assist AACAP staff in running the meeting by checking badges and tickets to confirm attendance, assist speakers as needed, and distribute and collect evaluation forms and/or other material that the speaker provides. In return for working either one full day or two half days, monitors receive complimentary registration for the meeting in addition to half-priced tickets for most ticketed events.

Reasons to Become a Monitor:
- FREE registration for all residents, trainees, and medical students
- Six days of scientific content given by the top experts in the field
- Customized programming, including a mentorship program
- Networking opportunities with presenters and peers

Members-Only Benefit!
Monitor Registration opens August 1 for AACAP members only; non-member registration opens one week later on August 8. All Monitors choose their own assignments through the registration system. Increase your chances of getting the Monitor assignment that you want by becoming an AACAP member today!
For more information about the Monitor Program, visit: www.aacap.org/monitors/2016.

Helen Beiser, MD Art Show
Join us at the annual Helen Beiser, MD Art Show in the Exhibit Hall! We invite AACAP members and family members to showcase their creativity! You may submit an application to exhibit up to three pieces of art. Works may include paintings, drawings, printmaking, potteries, sculptures, calligraphy, poetry, letterpress broadsides, artist’s books, and photographs.
Submission forms for the Art Show are available at www.aacap.org/AnnualMeeting/2016. The Art Show is coordinated by the Art Committee.
For more information, contact AACAP’s Meetings and Exhibits Manager at exhibits@aacap.org or 202.966.9574.
The Art Show is for exhibition purposes only; no pieces are offered for sale.

NEW This Year!
Join the Artists on Thursday, October 27, from 2:00 pm–3:00 pm to learn about their pieces of work.
AAPC’s Program Committee prides itself in having a well-balanced, comprehensive Annual Meeting for our attendees to stay up to date on the latest in the field. Visit www.aacap.org/AnnualMeeting/2016 for a complete listing of all programs, with descriptions and speakers. AAPC’s new online program schedule allows you to search by date, type of program, speakers, keywords, and committee sponsorship for a truly customized look at everything there is to offer.

CME Credits
The American Academy of Child and Adolescent Psychiatry is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Annual Meeting
The American Academy of Child and Adolescent Psychiatry designates this live activity for a maximum of 50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Self-Assessment Exam
The American Academy of Child and Adolescent Psychiatry designates this enduring material for a maximum of 8 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Board of Psychiatry and Neurology has reviewed the 2016 AAPC Annual Meeting Self-Assessment Exam and has approved this program as a part of a comprehensive self-assessment program, which is mandated by the ABMS as a necessary component of Maintenance of Certification.

Types of Programs
Below is a description of each type of program offered at AAPC’s Annual Meeting. Each type of program has a unique focus and purpose, so you can pick the programs that best fit your needs.

- **Clinical Case Conference** Allows clinicians to present difficult case material and includes discussions of diagnostic, clinical formulation, and/or treatment issues. These programs are three hours long and open to all attendees.
- **Clinical Consultation Breakfast** A forum for experts to share clinical wisdom and discuss difficult cases with attendees. These programs are one and a half hours long, require a ticket, and are limited to 15 participants.
- **Clinical Perspective** Similar to Symposia, Clinical Perspectives present a particular topic related to treatment, research method, service delivery, or clinical care, which is evidenced-based, but also includes the “art” and clinical wisdom of the practice of child and adolescent psychiatry. These programs are three hours long and open to all attendees.
- **Clinical Practicum** Provides clinicians with practical guidelines on the assessment and treatment of a specific clinical topic. The Clinical Practicum takes place offsite from the hotel and features facilities that are unique to New York City. It is held all day, a ticket is required, and attendance is limited to AAPC members.
- **Committee Meeting** Official meetings of AAPC’s Committees are open to all AAPC members, unless otherwise noted.
- **Institute** Focuses on “how to do it” with respect to clinical problems, academic areas, or a blending of the two. Institutes are designed for attendees who wish to be taught a comprehensive and authoritative overview of a topic area. Institutes are full day programs and require a ticket. Notebooks with all of the program materials are included.
- **Media Theatre** Features motion pictures, commercially released documentaries, videotapes, music, and other forms of media relevant to any area of child and adolescent psychiatry. These programs are two to three hours in length and open to all attendees.
- **Member Forum** An open discussion for AAPC members, about a topic specific to AAPC membership.
- **Member Services Forum** Designed to provide a practical service to AAPC members, such as training on how to be an advocate or updates on CPT codes.
- **New Research Poster Session** Authors present the results of data-rich research or clinical reports with opportunity for feedback from viewers. There are six New Research Poster Sessions throughout the meeting, and they are open to all attendees.
- **Special Interest Study Group** Allows individuals with similar interests to share their clinical or research experience, develop collaborations or networks, or discuss mutual interests. These programs are limited to 25 attendees and a ticket is required.
- **Symposium** Data-driven programs that present perspectives on different aspects of a topic or differing views of the same topic. These programs are three hours in length and open to all attendees.
- **Workshop** Provides instruction on treatment, research method, delivery, or organization of services, and are designed to encourage discussion in a small group. They are limited to 30 attendees, and a ticket is required for attendance.

For complete details and to register online, visit www.aacap.org/AnnualMeeting/2016.
Family-Friendly Activities

Are you looking for fun things to do with other families at AACAP’s 63rd Annual Meeting? Start the week off by meeting other families who also have kids to entertain in the City that Doesn’t Sleep at the Children’s Welcome Event on Tuesday, October 25, from 11:30 am–1:00 pm. We’ll provide some fall crafts and activities as well as light treats for the kids. All are welcome, but all children should be supervised by an adult.

The Local Arrangements Committee has also organized some outings for you to enjoy. For information on which activities they have put together, please visit www.aacap.org/AnnualMeeting/Families. If you are interested, please meet at the Hospitality Desk located in the Registration area at the New York Hilton Midtown at the designated time. You are responsible for your own transportation and admission fees, however directions to each location are provided on the day of the event. Your children may also participate in the Welcome Reception, evening Media Theatre programs, and the Exhibit Hall with adult supervision.

We’ve got you covered.

For over 30 years, we have provided psychiatrists with exceptional protection and personalized service. We offer comprehensive insurance coverage and superior risk management support through an “A” rated carrier. In addition to superior protection, our clients receive individual attention, underwriting expertise, and, where approved by states, premium discounts.

Visit us at apamalpractice.com or call (800) 421-6694 x-2318 to learn more.

Register Online (Save $25 and immediate processing!)

Registering online locks in ticketed events and provides instant confirmation of your registration. Online registration will be open until **September 30**.

Payment Information

- Registration fees are in U.S. dollars
- AACAP accepts Visa, MasterCard, and American Express
- Money orders or checks must be drawn on a U.S. bank. Make checks payable to AACAP
- Credit Cards are the ONLY form of acceptable payment for on-site registration. Cash transactions for on-site registration are NOT allowed
- Need to pay by wire transfer? Contact the Office of the Registrar at 202.966.7300, ext. 2005 or registrar@aacap.org for details

Cancellation/Refund Policy

All cancellations must be received in writing to registrar@aacap.org; telephone cancellations will not be accepted. Cancellation between the date of registration and September 15, 2016, will receive a full refund less a $150 administrative fee. No refunds will be given after September 15, 2016. Refunds will be issued after the meeting. Purchased session recordings are non-refundable and will be made available after the meeting.

Be Sure to Take Advantage of All of the Events Included in the General Registration Fee!

Included in the general registration fee are:
- Clinical Case Conferences
- Clinical Perspectives
- Exhibit Hall Access
- Media Theatres
- Member Fora
- Member Services Fora
- New Research Poster Sessions
- Plenaries
- Self-Assessment Exam
- Symposia
- Welcome Reception

Don’t miss out on these valuable programs!
PhRMA is a proud supporter of the American Academy of Child & Adolescent Psychiatry.

We are committed to helping patients live longer, healthier lives.
