

**54th Annual Meeting, American Academy of Child and Adolescent Psychiatry
International Institute on Prevention of Bullying and Health Risks**

October 25, 2007, Sheraton Boston Hotel

Jorge C. Srabstein, M.D., Chair
Children's National Medical Center
Washington, DC

Objectives:

This Institute is designed to enable child and adolescent psychiatrists, educators and policy makers to understand the nature of bullying, and to identify its health risks. It is also intended to facilitate the diagnosis and treatment of psychiatric conditions, which can cause and/or be the consequence of bullying; provide awareness about research based bullying prevention programs and to advocate for bullying prevention public health policies.
