AACAP'S 2021 VIRTUAL LEGISLATIVE CONFERENCE

TWITTER BEST PRACTICES

Keep it Simple
You have a 280 character limit on Twitter—don’t say in three sentences what you can say in one. Keep it pointed, and keep it precise.

Think About Your Audience
What you say online stays online. Stay away from crude and ambiguous language, and whatever you do, don't feed the trolls!

Post a Pic

#Utilize #Hashtags

Hashtags help connect your content to others in the conversation. Use the leg con # to boost your tweets and connect with others, and don't be afraid to branch out: Use terms you think are relevant. For example, you might use #Psych or #Advocacy to boost your post to like-minded people. This year's hashtag is #AACAPLC21.

Tag Your Targets!

Use the @ sign to tag people or organizations. Talking to a Senator and want to write about it? Mention her in a Tweet by tagging her handle! You can also tag your fellow CAP advocates!

Retweet

You don't have to come up with all the content yourself— if you see a Tweet you'd like to share, hit the retweet button to share it yourself, or retweet and reply to join in on the conversation!
Below please find sample posts to help you quickly promote and post your efforts during the Legislative Conference. They are broken down into three distinct topic areas. Feel free to use as you like. You can also tweak and cater your posts to make them more unique and personal.
