

AACAP Meet and Greet II

Table	Bio
1	<p>Arthur Reese Abright Dr. Arthur Abright is a psychiatrist in New York, New York and is affiliated with NYC Health and Hospitals-Elmhurst. He received his medical degree from University of Texas Southwestern Medical School and has been in practice for more than 20 years.</p>
1	<p>Taiwo Babatope Taiwo Babatope, MD , MPH, MBA serves as Fellowship Training Director of the Child and Adolescent Psychiatry Fellowship Program and Director of the Autism Spectrum disorders and Neurodevelopmental specialty clinic. She is an assistant professor in the Department of Psychiatry and Behavioral Sciences and a telemedicine-based provider with the UTHealth Houston Child Psychiatry Access Network (CPAN).</p> <p>Babatope earned her doctor of medicine degree from The College of Medicine, University of Lagos and obtained master’s degrees in public health (MPH) and in business administration (MBA) from the University of Alabama at Birmingham. She completed her residency and fellowship training at UTHealth McGovern Medical School where she served as chief fellow during her final year. Babatope has been active on numerous committees and has been the recipient of several awards, including the AACAP Educational Outreach Program Award, David Mendell Fellowship award in Family Therapy, APA/ APAF Child and Adolescent Psychiatry Fellowship Award, AACAP Systems of Care Special Program Clinical Projects Award, and the Cynthia W. Santos Best Clinician Educator Inaugural Award.</p> <p>Babatope has a special interest in early childhood disorders, including Autism Spectrum Disorders and Intellectual Disabilities. She has extensive training and experience working with this special population and continuously explores innovative approaches to provide the best possible care to her patients. Babatope also has strong interests in Ethics, Professionalism and in promoting evidence-based clinical care with measurable outcomes. She enjoys opportunities to inspire, educate, and mentor her trainees.</p>

Table	Bio
2	<p>Hisla Bates Dr. Hisla Bates, MD, Harvard/Yale trained Pediatric and Adult psychiatrist. After completing an internship in primary care internal medicine at Yale, her general psychiatry training was completed at the Mount Sinai School of Medicine in New York City. She continued on to her Child and Adolescent psychiatry Fellowship at Harvard Medical School's, Massachusetts General Hospital/ McLean's program. She has an integrative and holistic approach to the treatment of mental illness and completed a Fellowship in Integrative Psychiatry in 2020. She uses Mindfulness, Positive Psychology/Psychiatry, and the Expressive and Creative Arts working with children and adults. Dr. Bates is also the Co-Chair of the AACAP Art Committee and the Assistant Arts Editor for the Journal of the American Academy of Child & Adolescent Psychiatry (JAACAP). She is a Parsons School of Design graduate, an illustrator, printmaker, speaker and writer. She hosts the podcast, Healer Heal Yourself, Reduce Burnout, Discover Your Creativity While You Heal Others that explores the intersection of art, creativity and medicine. She is one of the authors in Alien Nation: 36 True Tales of Immigration and is working on her memoir and several children's books.</p>
2	<p>Khyati Brahmbhatt Outside of academia loves mentorship, movies and sports, travelling, playing the piano, learning to play the cello, and learning fencing (daughter was a national competitive fencer.) She has two adult daughters and a physician husband who have supported her in her journey and how to integrate work and life.</p>
3	<p>Kimothi Cain Kimothi Cain, MD, MPH is triple-boarded in Adult Psychiatry, Child and Adolescent Psychiatry, and Consult Liaison Psychiatry. She serves as the Program Director of the Child and Adolescent Psychiatry Fellowship at the University of New Mexico, as well as the Medical Director for Child Psychiatry Outpatient Services. Dr. Cain has extensive clinical experience in perinatal, adolescent and early childhood psychiatry, with a focus on children aged five and younger. She is dedicated to providing valuable care to New Mexico's most vulnerable young children and their families, with the goal of improving resilience, reducing intergenerational child abuse and trauma, and enhancing outcomes for children. Dr. Cain is also a passionate educator, working with a diverse group of learners, including advanced practice provider students, medical students, family medicine residents, pediatric residents, psychiatry residents, and child and adolescent psychiatry fellows.</p>

Table	Bio
<p>3</p>	<p>Shireen Cama</p> <p>Dr. Cama graduated from Yale University with a BA in Economics. She attended Harvard Medical School before completing a pediatrics residency at the University of California, San Francisco. She completed both her adult psychiatry residency as well as her child & adolescent psychiatry fellowship at the Cambridge Health Alliance. She is a past Bill Emerson Congressional Hunger Fellow, recipient of the Harvard Medical School Presidential Scholars Public Service Award, a Laughlin Fellow of the American College of Psychiatrists, a CHA Gold Innovation Fellow and a graduate of the Harvard Macy Institute’s Program for Educators in Healthcare Professions.</p> <p>Dr. Cama’s current academic interests include primary care-mental health integration, cultural psychiatry, quality improvement, addressing social determinants of health, and infant mental health. She has published in peer-reviewed journals on topics including cultural psychiatry, integrated care, access to pediatric mental health care and mental health in medically fragile populations. Dr. Cama served as Associate Training Director for Child & Adolescent Psychiatry from July 2018-December 2020, after which she became Training Director for the fellowship. Her clinical time is spent as an integrated child/adolescent psychiatrist in pediatric primary care, and she is the Team Lead the Child/Adolescent Mental Health Integration (CAMHI) program at CHA.</p> <p>Pronouns: She/Her/Hers.</p>
<p>4</p>	<p>Alexandra Canetti</p> <p>Alexandra Canetti, MD, is a board-certified child and adolescent and adult psychiatrist with expertise in psychosomatic disorders, depression, attention-deficit/hyperactivity disorder, and anxiety disorders. Her areas of interest include community psychiatry and culturally humble family-based care to children and youth with medical illnesses. She serves as the Program Medical Director of the Special Needs Clinic, where she treats the mental health needs of individuals and families affected by medical illness and used to serve as the Program Medical Director of the School-Based Mental Health Program. She is also the Director of Student Medical Education within the Columbia University Division of Child and Adolescent Psychiatry.</p>

Table	Bio
4	<p>Angel Caraballo Angel Caraballo, MD is currently a double board certified-child, adolescent and adult psychiatrist in a private practice in New York City. He has has many years of significant and continuing contribution to patient care, teaching and education and as an advocate for patients. He has a special interest in Diversity, Equity and Inclusion, Schools, Adolescent Psychiatry, Psychotherapy, and Personality Disorders amongst others. Dr. Caraballo is the recipient of the 2023 Hulse Award. Previously, he was an Assistant Professor at Columbia University Medical Center and served as Medical Director of the New York Presbyterian Hospital-Morgan Stanley Children’s Hospital School Based Mental Health Program. Dr. Caraballo completed his training at New York Presbyterian Hospital-Columbia and Cornell Programs; Columbia Center for Psychoanalytic Training and Research; Anna Freud Centre and SUNY-Stony Brook and medical school at Instituto Tecnológico de Santo Domingo. He is also the past president of the New York Council on CAP and an active board member and co-chair of the Disaster and Trauma Committee. He also serves as a member of the Adolescent Psychiatry Committee, and Diversity and Culture Committees of AACAP and a Mentor for the Psychodynamic Faculty Initiative,.</p>
5	<p>Clarence Chou Dr. Clarence P. Chou is a psychiatrist in Milwaukee, Wisconsin. He received his medical degree from Medical College of Wisconsin and has been in practice for more than 20 years.</p>

Table	Bio
5	<p>Steven Cuffe</p> <p>Steven Cuffe, M.D is Chair of the University of Florida College of Medicine, Jacksonville Department of Psychiatry, and Program Director of the Child and Adolescent Psychiatry Fellowship Program. He has built a strong clinical department and the first ACGME-accredited Psychiatry Residency and Child and Adolescent Psychiatry Fellowship Programs in Jacksonville. Dr. Cuffe received his medical degree from Wake Forest University and completed general and child and adolescent psychiatry training at the University of California, San Francisco. Dr. Cuffe’s research focuses on the prevalence, risk and protective factors, and treatment of mental disorders in children. He served as principal/co-principal investigator on projects exceeding \$2 million in funding from both the National Institute of mental Health and the Centers for Disease Control and Prevention. His has published over 50 journal articles and book chapters. Dr. Cuffe has served on the editorial boards of the Journal of the American Academy of Child and Adolescent Psychiatry and the Journal of Attention Disorders. He has also served as member (for 6 years) and Vice Chair (for two years) of the American Board of Psychiatry and Neurology, Child and Adolescent Psychiatry Steering Committee. Dr. Cuffe also served a member of the Accreditation Council for Graduate Medical Education Residency Review Committee for Psychiatry for six years. He previously served as Chair of the Assembly of Regional Organizations of the American Academy of Child and Adolescent Psychiatry, and was also elected and served as Treasurer of AACAP. Dr. Cuffe has received numerous awards for clinical excellence, research and teaching, including the Award for Clinical Excellence from the William S. Hall Psychiatric Institute, the Exemplary Teacher Award from the University of Florida for the past 9 years. He received the Elaine Schlosser Lewis Award for research from the American Academy of Child and Adolescent Psychiatry in 2002. and the Robert C. Nuss Researcher / Scholar of the Year Award in 2016 from the University of Florida Health Science Center, Jacksonville.</p>

Table	Bio
6	<p>Melissa DeFilippis Dr. DeFiippis joined the psychiatry faculty at UTMB in 2011. She currently serves as the Director of the Child and Adolescent Psychiatry Division at UTMB. She also recently served as the interim child psychiatry fellowship training director and is currently working closely with the incoming fellowship training director to assure a smooth transition. She received her medical degree from the University of Texas Health Science Center at Houston and completed her general psychiatry residency and child and adolescent psychiatry fellowship training at the University of Texas Medical Branch in Galveston.</p> <p>Dr. DeFilippis directs and supervises the Department of Psychiatry’s Developmental Disorders clinic, assessing and treating patients with various neurodevelopmental disorders, including autism spectrum disorder. She provides outpatient services to patients in the Galveston area and serves as the primary investigator for the Youth Depression Suicide Network at UTMB, a state-funded network of 12 health-related institutions in Texas. She is also the medical director of UTMB’s CPAN program, a phone consultation program serving primary care providers who treat children in the region. Dr. DeFilippis is active in the Texas Society of Child and Adolescent Psychiatry and is a past president of this organization. She has written several peer reviewed articles on pediatric mood disorders and on autism spectrum disorder in children and adolescents, and she has been invited to speak both nationally and internationally about treatment challenges in these patient populations. Dr. DeFilippis is dedicated to residency education and teaching, and she has received the excellence in resident teaching award for the child and adolescent psychiatry fellowship program multiple times, most recently in 2022.</p>
6	<p>Jennifer Dorr Dr. Jennifer Dorr is a psychiatrist in Philadelphia, Pennsylvania and is affiliated with Children's National Hospital. She received her medical degree from Philadelphia College of Osteopathic Medicine and has been in practice between 11-20 years.</p>
7	<p>Stephen Elliot Stephen C. Elliott is a psychiatrist in Dallas, Texas and is affiliated with multiple hospitals in the area, including Children's Medical Center Dallas and UT Southwestern Medical Center. He received his medical degree from University of Texas Southwestern Medical School and has been in practice between 11-20 years.</p>

Table	Bio
7	<p>Lisa Fortuna Lisa Fortuna, MD, MPH is Professor of Psychiatry and Executive Vice-Chair in the Department of Psychiatry and Behavioral Sciences at UCSF and Chief of Psychiatry at Zuckerberg San Francisco General Hospital. She has been an investigator on several National Institutes of Health and foundation-funded studies of Latinx and immigrant mental health, integrated care, and access to care. Her areas of expertise are child and adolescent psychiatry, treatment and research on PTSD across the lifespan, immigrant mental health, and health services, equity and implementation research including digital interventions to improve systems of care for disenfranchised communities.</p>
8	<p>Gordon Harper Gordon Harper MD trained in Pediatrics, Psychiatry, and Child Psychiatry at Boston Children’s and the Massachusetts General. He has worked in inpatient treatment (developing “focal treatment”), public sector Psychiatry (at the Massachusetts Dept of Mental Health) and in global mental health, as Treasurer and Vice President of the International Association of Child and Adolescent Psychiatry (IACAPAP). He teaches at Harvard Medical School and the Beth Israel-Deaconess in Boston.</p>
8	<p>Melissa Hopkins, M.D Melissa Hopkins, M.D. is the Associate Program Director for the UCD CAP fellowship program. She is the Director of UCD Pediatric Integrated Behavioral Health Services and the Medical Director of the UCD Outpatient Psychiatry Clinics. Her interests are in integrated and collaborative care, medical education, maternal mental health, anxiety disorders and OCD, and medically complex children.</p>
9	<p>Jeffrey Hunt Dr. Hunt is Program Director for the Child and Adolescent Psychiatry Fellowship and the Combined Program in Pediatrics, Psychiatry and Child and Adolescent Psychiatry at Brown University. He is Deputy Division Director for the DPHB Division of Child and Adolescent Psychiatry and Director of Inpatient and Intensive Services at Bradley Hospital. His areas of interest include pediatric mood disorders, suicidal behavior, and training and education. Dr. Hunt has been a co-investigator on a number of research grants including the NIMH funded Course and Outcome of Bipolar Youth study and currently the Predicting Adult Outcomes in Bipolar Youth (PROBY) study. He serves on several national committees including AACAP, ACGME, and the ABPN. He is also the Senior Editor of the Brown Child and Adolescent Psychopharmacology Newsletter. Dr. Hunt graduated from the Medical College of Wisconsin after receiving a BA from Carroll College of Montana (Magna cum laude) and Masters of Science in Biology at Montana State University. He completed general and child and adolescent psychiatry residency training at the Medical College of Pennsylvania/ Eastern Pennsylvania Psychiatric Institute (Now Drexel University).</p>

Table	Bio
9	<p>Shawen Ilaria Dr. Ilaria is an Assistant Professor in the Department of Psychiatry at Rutgers Robert Wood Johnson Medical School and is the Program Director of the Child & Adolescent Psychiatry Fellowship. She runs the Child & Adolescent Psychiatry Consult/Liaison Service at the Bristol-Myers Squibb Children's Hospital, and sees outpatients in multidisciplinary settings with Pediatric Hematology/Oncology and Pediatric Neurology. She joined the faculty of Rutgers RWJMS in 2019, after completing her Child & Adolescent Psychiatry Fellowship and Psychiatry Residency training at the same institution.</p>
10	<p>Robert Jaffe Robert Jaffe is an Associate Professor of Psychiatry and Pediatrics at The Mount Sinai Hospital in New York City. He is currently the Program Director for the Child and Adolescent Psychiatry Fellowship as well as the Psychiatric Director of the School-Based Program in East Harlem serving the city's youth. He is the Director of the Mount Sinai Tourette Association of America's Center of Excellence. He is currently leading research trials looking at novel treatments for Tourette's Disorder and ADHD.</p>
10	<p>Brandon Johnson Dr. Johnson provides individual psychotherapy and medication management for children, adolescents, and adults in his faculty practice. He treats a variety of diagnoses, including: anxiety, depression, ADHD, behavioral disorders, autism spectrum disorder, PTSD, gender dysphoria, and substance use disorders. Dr. Johnson is certified to prescribe buprenorphine for opioid use disorders. Dr. Johnson provides a diverse range of psychotherapies based on client need, including supportive therapy, psychodynamic therapy, cognitive behavioral therapy (CBT), and skills associated with dialectical behavioral therapy (DBT).</p> <p>Dr. Johnson has interests in clinical education, individual and group psychotherapy, pediatric psychopharmacology, and collaborative care. In addition, Dr. Johnson has expertise in the evaluation and treatment of transgender and gender non-conforming youth. He has given several presentations and is published in this area. He most recently was the first author on an article published in Child and Adolescent Psychiatric Clinics of North America entitled, "Risk versus Resiliency: Addressing Depression in Lesbian, Gay, Bisexual, and Transgender Youth." Dr. Johnson is a member of the Sexual Orientation and Gender Identity Issues Committee (SOGIIC) of the American Academy of Child and Adolescent Psychiatry (AACAP), whose mission is to promote awareness and expand clinical competency in working with LGBTQ youth.</p>
11	<p>Amy Kim Dr. Amy Kim is a psychiatrist in Philadelphia, Pennsylvania and is affiliated with Children's Hospital of Philadelphia. She received her medical degree from New York University Grossman School of Medicine and has been in practice for more than 20 years.</p>

Table	Bio
11	<p>Kristi Kleinschmit Kristi Kleinschmit, MD, Associate Professor (Clinical), graduated from Tulane University School of Medicine in New Orleans, Louisiana. She completed a Triple Board internship/residency at the University of Utah School of Medicine, and holds American Board certifications in Pediatrics, Adult Psychiatry and Child and Adolescent Psychiatry. Dr. Kleinschmit is an attending at the University of Utah Huntsman Mental Health Institute providing clinical services for children and adolescents at the partial hospital level. As well, she is a consulting psychiatrist to primary care providers across the state of Utah through the CALL-UP psychiatric consultation line. She is working with the University of Utah College of Nursing and Juvenile Justice Services and has been partnering with the Department of Educational Psychology to further School Mental Health programs. She is the Vice Chair of Education for the Huntsman Mental Health Institute/University of Utah Department of Psychiatry, and is the training program director for the Triple Board and Child Psychiatry Training Programs. Her academic interests include outcomes for combined training graduates, mentorship, and improving access to clinical services.</p>
12	<p>Amy Lynn Meadows Amy Lynn Meadows received her combined medical and Master of Health Science degrees from Yale University School of Medicine in New Haven, Conn., where she also completed a Doris Duke Research Fellowship. She completed “Triple Board” residency in Pediatrics, General Psychiatry, and Child and Adolescent Psychiatry at the University of Pittsburgh Medical Center. Given this background, she specializes in evaluating and treating children and adolescents with complex concerns at the intersection of pediatric medicine and behavioral health. She currently runs the Pediatric Psychiatry Consultation-Liaison program at Kentucky Children’s Hospital and is an Associate Program Director for the “Triple Board” program at the University of Kentucky.</p> <p>Dr. Meadows is board certified by the American Board of Pediatrics and the American Board of Psychiatry and Neurology in Psychiatry and Child and Adolescent Psychiatry.</p>

Table	Bio
12	<p>Natasha Marrus Dr. Natasha Marrus is a Child and Adolescent Psychiatrist and Assistant Professor at the Washington University in Saint Louis School of Medicine. Her clinical practice is centered on early childhood evaluations for autism spectrum disorder (ASD), as well as school consultations for students with ASD and associated psychiatric conditions. Her developmental neuroscience research aims to identify early causal mechanisms of ASD. Her work focuses on three main goals: 1) measuring phenotypes of ASD as related to social motivation, 2) tracking the development of neurocircuitry which underlies social, language, and motor function through neuroimaging, and 3) designing experimental paradigms to assess ASD risk. By advancing these behavioral neuroscience lines of research, Dr. Marrus hopes to improve early risk assessment and identification of ASD while also elucidating mechanisms that will advance individualized treatment strategies.</p>
13	<p>Ardis Martin Ardis C. Martin, M.D. is a board-certified child, adolescent and adult psychiatrist. She earned her Bachelor of Arts in Philosophy and Psychology at Boston University. She earned her Doctor of Medicine Degree at Wright State University School of Medicine. She completed her Internship and Residency training in Adult Psychiatry at the University of New Mexico and her Child and Adolescent Psychiatry training at the Harvard Medical School/ Massachusetts General Hospital/McLean Hospital Child and Adolescent Psychiatry Fellowship Program.</p> <p>Dr. Martin has worked in multiple settings, e.g., community mental health, private practice, and group private practice, and enjoys teaching and giving back to medical students, residents, and fellows through mentorship, medical education, and shadowing opportunities.</p> <p>Dr. Martin enjoys speaking about mental health's importance, reducing stigma, promoting prevention, and improving overall mental well-being. She has given multiple presentations at the local and national level. She also enjoys writing and lecturing about cultural competency, the use of music, poetry, art, literature, and film to teach about cultural issues in psychiatry, as well as the role that the arts can play in treating children and adolescents.</p>
13	<p>Petronella Mbu Dr. Mbu has been a C&A psychiatrist since 2017. She is passionate about seeing children/families attain mental health, helping children in crisis, graduate medical education and advocacy. At Aacap she is a member of the systems of care committee, an advocacy liaison, a member of the ECP and has served as the ECP rep to the assembly of regional organizations for the past 2 yrs.</p>

Table	Bio
14	<p>Kerim M. Munir, MD, DSc Kerim Munir’s research is focused on autism and neurodevelopmental disorders across the lifespan, with an emphasis on understanding determinants of developmental psychopathology and comorbidity. He has also led important research training programs in global mental health, developmental disabilities and public health. He served as a member of the WHO International Classification of Diseases, 11th edition (ICD-11) Review Group on Intellectual Disabilities and is currently Secretary, World Psychiatric Association (WPA) Section on Psychiatry of Intellectual Disability. He was advisor to UNICEF-Turkey during the 1999-2001 Marmara Earthquakes, and subsequently, the lead author of the 1st National Mental Health Policy for Turkey sponsored by World Bank and Ministry of Health.</p> <p>Since 2000, he has participated as PI of NIH-funded International Collaborative Operational Health Research Award (ICOHRTA) and as PI of the Non-Communicable Diseases (NCD) across the Lifespan Research Training Programs funded by the Fogarty International Center. He also directed a National Institute of Mental Health (NIMH) funded national research education program in Mental Health and Developmental Disabilities (MHDD) for graduate students and early career scientists. Since 2012, he is PI of the International Research Bioethics Initiative for Turkey/C. Asia in collaboration with Koç University with regional participation in a Research Methodology & Ethics in the Health Sciences Summer Institute in Istanbul as a hub.</p> <p>He is the recipient of the Klaus Peter Award in International Medical Education from the Harvard Medical School, George Tarjan Award in Developmental Disabilities from the American Academy of Child and Adolescent Psychiatry, T. Berry Brazelton Award in Pediatric Innovation from the Boston Children’s Hospital Division of Developmental Medicine, as well as international awards from the National Association of Child Psychiatry and Mental Health, and the Ministry of Health, Turkey.</p>
14	<p>Scott Palyo I am a board-certified, child and adolescent psychiatrist working in private practice in Greenwich Village as well as an assistant professor in psychiatry at New York Medical College and a psychoanalytic candidate at NYU Postdoctoral Program in Psychotherapy and Psychoanalysis. Previously, I was the Medical Director at Safe Horizon Counseling Center, which is a clinic devoted to the treatment of victims of crimes, and was a faculty member at NYU School of Medicine. Following residency I had experience covering inpatient psychiatric units, consult services and Emergency Rooms in New York City as well as in a community health program evaluating homeless men.</p>

Table	Bio
<p>15</p>	<p>Meeta Prakash Hometown: Richmond, Virginia About: Meeta enjoys Ultimate Frisbee, Harry Potter and all novels, cooking and traveling. What I like about New Orleans: Meeta likes walking the bayou with her dog and eating at all the amazing restaurants. Professional Interests: Meeta is interested in eating disorders, IBS and generally the intersection between GI issues and mental health. She would like to be active in advocacy and school health. She also hopes to reduce trauma for families from acute care situations like the NICU and PICU.</p>
<p>15</p>	<p>Zheala Qayyum Dr. Zheala Qayyum is the medical director of the Emergency Psychiatry Services at Boston Children’s Hospital, and a medical educator. She is board certified in general psychiatry, child and adolescent psychiatry and consultation liaison psychiatry. She received her master’s degree in Medical Education from Harvard Medical School.</p>
<p>16</p>	<p>David Rettew David Rettew, MD is a child & adolescent psychiatrist who currently works as the Medical Director of Lane County Behavioral Health in Eugene, Oregon and is a clinical faculty member at OHSU. Before moving to Oregon, he worked as a tenured associate professor of psychiatry and pediatrics at the University of Vermont Medical Center and was Medical Director of the child and families division of the Vermont Department of Mental Health. He was also past president of the Vermont Association of Child and Adolescent Psychiatry and was previously the Training Director of UVM’s child psychiatry fellowship program. He is the author of 2 books and over 50 peer reviewed journal article on a variety of mental health topics. He currently is the co-chair of the American Academy of Child & Adolescent Psychiatry’s (AACAP) Health Promotion and Prevention committee and was previously on their journal’s (JAACAP’s) editorial board. Dr. Rettew did his general psychiatry and child & adolescent training at the combined Massachusetts General/McLean Hospital programs.</p>

Michelle Rickerby

Michelle Rickerby MD is a board certified child and adolescent and adult psychiatrist. She graduated cum laude from the University of Notre Dame in 1989 with a degree in Pre-Medical Studies and The Program of Liberal Studies. After graduating from the University of Connecticut School of Medicine in 1993 she completed her Psychiatry Residency at the George Washington University Hospital in Washington DC. She subsequently completed her Child Psychiatry Fellowship at The Warren Alpert Medical School of Brown University during which time she worked at both Bradley Hospital and Hasbro Children’s Hospital and served as Chief Resident.

Upon the completion of residency training, between 1998-2000 Dr Rickerby founded The Crisis Service at Bradley Hospital and was also a staff psychiatrist on the consultation- liason service at Hasbro Children’s Hospital. Subsequently she focused her career on the development of the Partial Hospital Program at Hasbro Children’s Hospital. The HPHP is a program that has been nationally recognized as a gold standard model of family-based integrated care for children and teens with complex combinations of medical and psychiatric illnesses. Illness challenges treated at HPHP include eating disorders, chronic illness management complicated by psychological distress and psychiatric illness, complex pain disorders, and a range of somatoform illnesses including conversion disorder and somatic symptom disorder.

The model of family- based integrated care that Dr. Rickerby developed along with a talented team of colleagues is focused on multidisciplinary team support for patient and family empowerment over illness challenges through optimizing their perspective on the illness and maximizing teamwork across patient, family and the treatment team. Dr Rickerby has been a staff psychiatrist at HPHP since 2000, became the Clinical Director in 2004, and became the Psychiatric Director in 2011. In addition, Dr. Rickerby worked in the role of Psychiatric Director of Med/Psych Services for Hasbro Children’s Hospital from 2015-2017 providing leadership in program development on the inpatient med/psych unit as well as in the development of integrated care home-based services.

Dr. Rickerby is currently a Clinical Professor of Psychiatry and Human Behavior at The Warren Alpert School of Medicine of Brown University. She is the Director of Family Therapy Training for the residents in the Child Psychiatry and Triple Board Residency Programs. In addition, she is nationally recognized as an expert in family-based integrated care and has served as a consultant for hospital systems across the country aiming to establish programs modeled after the HPHP. She is a Board Member of The Family Process Institute as well as the The Family Committee of The American Academy of Child and Adolescent Psychiatry.

Starting in June 2018 Dr. Rickerby transitioned to community-based practice with a focus on providing outpatient family-based integrated care as well as on program development consultation and cross-disciplinary family therapy training.

Table	Bio
17	<p>Gaby Ritfeld Dr. Gaby Ritfeld is a child and adolescent psychiatrist at Phoenix Children’s, where she also serves as the program director for the child and adolescent psychiatry fellowship program, and as the psychiatry clerkship site director for medical students. Additionally, she is the principal investigator on an NIH/ NIAAA-funded research study, investigating the neurobehavioral health outcomes in children of individuals with Fetal Alcohol Spectrum Disorders. Dr. Ritfeld received her MD and PhD degrees from Leiden University in the Netherlands, and conducted most of her graduate and postgraduate research in laboratories at the Johns Hopkins University and at the University of Pittsburgh. She trained in neurology for 2 years in the Netherlands, and completed her adult, and child and adolescent psychiatry training at Emory University. As a clinician-educator-researcher, Dr. Ritfeld loves to teach medical students, residents and fellows and regularly presents at national and international conferences.</p>
17	<p>Magdalena Romanowicz Dr. Magdalena Romanowicz is a psychiatrist in Rochester, Minnesota and is affiliated with Mayo Clinic. She received her medical degree from Medical University of Warsaw and has been in practice between 11-20 years.</p>
18	<p>Jeanette Scheid Dr. Scheid graduated from the Michigan State University College of Human Medicine Medical Scientist Training Program with an MD and PhD from the Department of Microbiology in 1994. Dr. Scheid completed a combined general and child/adolescent psychiatry residency at the University of Pittsburgh/ Western Psychiatric Institute and Clinic in 1999. Dr. Scheid’s primary research interests are in the area of mental health services and public policy for children and adolescents with limited resources and multiple needs and in collaboration amongst care providers from multiple disciplines. She has a long-standing interest in the issues faced by youth who have been exposed to trauma. She has clinical experience in working with children and adolescents with a variety of problems including disruptive behaviors, mood and anxiety disorders and eating disorders.</p> <p>Dr. Scheid is the Medical Consultant to Michigan Department of Human Services. In this role she participates in the planning and execution of policy focused on improving the health and well-being of the youth served by the Department.</p>

22	<p data-bbox="381 254 641 289">Asima Ali Zehgeer</p> <p data-bbox="381 289 1393 548">Dr. Zehgeer is the Director of the Child and Adolescent Psychiatry Training Program at the UConn School of Medicine Department of Psychiatry. The fellowship training focuses on using a collaborative multidisciplinary model. It seeks to provide empirically based, measurement-informed, family-integrated, culturally competent, and developmentally sensitive standards of care and facilitate more excellent knowledge through clinical, applied, and translational research.</p> <p data-bbox="381 590 1386 953">The training program is committed to teaching diagnostic, consultative, and therapeutic skills essential to child and adolescent psychiatry. The training program focuses on practices and learning focused on trauma-informed care, diversity, equity, and inclusion. Dr. Zehgeer’s career has focused on clinical work, education, training, clinical administration, and child mental /behavioral health advocacy, as evidenced by her different roles within her institution. Dr. Zehgeer has been on the UConn School of Medicine faculty since 2014. Upon completing her fellowship training at UConn, she started her career as a full-time consulting Psychiatrist for CT Court Support Services Division (CSSD) 2014-2016.</p> <p data-bbox="381 995 1398 1358">From 2016-2019, Dr. Zehgeer has served as Medical Director of the Multi-Dimensional Family Therapy (MDFT) program at Hartford Behavioral Health (HBH) Connecticut, and a Consultant Psychiatrist to the Capital Region Educational Council (CREC) therapeutic school, Farmington Valley Diagnostic Center (FVDC). In 2018, Dr. Zehgeer was appointed a member of the Task Force to Study the Projected Shortage in the Psychiatry Workforce by the Honorable Speaker, House of Representatives, State of Connecticut. She serves as UConn’s Child Psychiatrist Liaison to the State of Connecticut for Child Mental Health Care and Policy. Since 2019, She has been the Clinical Service Chief for Child and Adolescent Psychiatry at UConn Health.</p> <p data-bbox="381 1400 1401 1650">Dr. Zehgeer is additionally trained and certified in ADOS (Autism Diagnostic Observation Schedule), has a certification course in Mindfulness therapy in youth, and certification in Structured Interview of Psychosis-risk Syndromes (SIPS) for early onset psychosis diagnosis in childhood. In 2016, Dr Zehgeer started a subspeciality Neurodevelopmental Disorder Clinic at West Hartford UConn Health. Since then, the clinic has been expanding and serving vast areas of the region.</p> <p data-bbox="381 1692 1386 1900">Dr. Zehgeer has created multiple teaching curricula for fellowship training and teaches didactic seminars to UConn medical students, Psychiatry residents, Child and Adolescent Psychiatry fellows, and onsite clinical teaching/ supervision and mentoring. Family Trauma, Child Custody, and Child Development, and a Reviewer for the Journal of Racial and Ethnic Health Disparities (REHD).</p>
