

AACAP  **2023**
NYC **October**
23-28

Meet the Owl Life Members

Tuesday, October 24th, 4:15 PM - 6:15 PM EDT

Who are the
Owl Life
Members?

AACAP Members qualify as Life Members when their age and membership years total 103, with a minimum age of 65 and continuous membership. Life Members are seasoned professionals with tremendous expertise.

**Hosted by: Life Members Committee &
Committee on Medical Students and Residents**

Greetings Valued Trainees!

AACAP's Life Members Committee is pleased to organize and sponsor this event and we hope it is helpful to you! This information about the Life Member Mentors and other dynamic participating Mentors is provided to make it easier for you to locate which mentors you would like to connect with.

Remember that almost all child and adolescent psychiatrists have served in a wide variety of capacities and services. These include direct clinical services, public and community services, consultation and liaison, academia, research, authoring articles and books, program development, advocacy, etc. Therefore, feel free to ask any of the mentors about anything, including their personal experiences and what they've learned from other pioneers in the field.

Included are the mentors' current locations and affiliations, as well as their interests. If you don't see one listed, ask anyway because we may be able to answer your questions or share recommendations of individuals specific to your interest(s). Photographs to help you identify the mentors and e-mail addresses should you wish to write them are also included.

MEET YOUR HOSTS, THE OFFICIAL EVENT CO-CHAIRS:
