JOIN US AT AACAP’S 61ST ANNUAL MEETING!

I’M LOOKING FORWARD to seeing all of you at AACAP’s 61st Annual Meeting in sunny San Diego, CA, October 20–25 at the Manchester Grand Hyatt and Marriott Marquis & Marina hotels.

We have a wide variety of programs and some innovative topics too. As a reminder, the large majority of our sessions are accredited for continuing medical education (CME) credit: attendees can receive up to 50 CME credits by attending the entire meeting.

As you’ve come to expect at the last couple of Annual Meetings, we will continue to offer:

- Complimentary wireless Internet throughout the meeting space at the hotels.
- An improved Annual Meeting App that not only allows you to navigate the meeting without paper, but also to complete all of your session evaluations electronically, as well.
- PDFs of the Book of Scientific Proceedings and Program Book available for all attendees.
- A fun-filled Welcome Reception—this year aboard the USS Midway (when was the last time you had a party on an aircraft carrier?!), and as always, featuring AACAP’s own Pink Freud and the Transitional Objects! Badges are required for entry for all adults; children are welcome and do not require badges.

A special welcome to your families, too! Please see pages 41–42 for information on local activities for you and your kids at the Annual Meeting.

While we are back to our traditional schedule with the Welcome Reception on Wednesday and receptions and reunions on Thursday evening, we have one major change: we are not having any programming on Sunday this year. However, you’ll see that Saturday’s program is full of amazing, can't-miss programming, so be sure to plan to stay all day! As always, dress is casual for the entire meeting.

With important changes in the field like the Affordable Care Act, legalized medicinal and recreational marijuana use, new research in psychopharmacology, and advances in technology, mental health care professionals can’t afford to miss the Annual Meeting.

Visit www.aacap.org/AnnualMeeting/2014 for more information!

Be sure to register by September 15 to take advantage of early rates.

See you in San Diego,

Gabrielle A. Carlson, MD

SYSTEMS OF CARE
SPECIAL PROGRAM

Youth and Young Adults in Transition: Issues for Child and Adolescent Psychiatrists and Service Systems

Chairs:

Mark Chenven, MD
Adele L. Martel, MD, PhD
Vivien Chan, MD

Monday, October 20
8:00 a.m. – 5:00 p.m. (ticket)
Sponsored by the AACAP Community-Based Systems of Care Committee and Transitional Age Youth and College Student Mental Health Committee

This program provides child psychiatrists and other mental health providers with the knowledge, skills and attitudes needed to better serve individuals with mental health challenges during their transitional age years (approximately ages 15–25). Child and adolescent psychiatrists (CAPs) can have a number of different roles working with youth and young adults in the transition years—as a diagnostician, therapist, psychopharmacologist, treatment team member, and advocate. In order to be effective in these various roles, CAPs must have the background and skills to address the needs of these youth and young adults, be able to work with other clinical and support agency staff, and provide leadership in reviewing needs for quality improvement and system change.

RESEARCH FORUM

The Use of Research Domain Criteria (RDoC) for the Study of Psychopathology

Research Committee Chairs:

Melissa P. DelBello, MD, MS
Adelaide S. Robb, MD

Research Forum Chair and Co-Chair:

Bradley S. Peterson, MD
Stacy S. Drury, MD, PhD

Tuesday, October 21
8:00 a.m. – 5:00 p.m. (ticket)
Sponsored by the AACAP Research Committee

The Research Forum is designed to drive the research policy agenda for child and adolescent psychiatry by creating an environment that encourages scientific exploration and collaboration of investigators across disciplines. The primary audience is researchers, although others are invited to attend.

The unveiling of the Research Domain Criteria (RDoC) as part of the National Institute of Mental Health’s strategic plan has triggered a lively debate and controversy for both clinicians and researchers. Greater integration of DSM-5 and RDoC in both settings is needed to advance the field. As one step in this integration, the Research Forum will bring together individuals with a range of perspectives.

Questions about the Research Forum? Contact Liz Goggin at 202.966.2534 or lgoggin@aacap.org.

AACAP’S 61st Annual Meeting
CLINICAL PRACTICUM

Early Childhood Mental Health: Identifying and Treating Developmental, Social, and Emotional Problems Before the Age of 5

Tuesday, October 21
9:00 a.m. – 5:00 p.m. (ticket, members only)

Sponsored by the AACAP Local Arrangements Committee

Chairs: Jeffrey K. Rowe, MD and Kristin Gist, MS

Location: Rady Children’s Hospital San Diego, San Diego, CA

The objective of this year’s Clinical Practicum is to familiarize clinicians with the 8 foundations of social and emotional development, how the early childhood mental health (ECMH) system of care was developed in San Diego, how young children with developmental problems are identified and linked to appropriate services, and how to apply these concepts to your own practice. Attendees observe clinical assessments and treatments of children identified with complex presentations related to medical, developmental, mental health, and family stress problems. Attendees learn about and observe the differences between multidisciplinary treatment teams and transdisciplinary treatment teams.

Because of what we know about brain development, the importance of the earliest relationships, and the effects of exposure to drugs, alcohol, and trauma, early identification and treatment of children and families at risk of serious mental health problems is of the utmost importance.

A great deal of knowledge has been developed over the past 20 years related to neurobiological development of children, the impact of neglect and trauma on young children, and the consequences related to problems in regulating emotion and developing relationships. Multiple treatment interventions have been developed and studied that help us intervene in a very effective manner in order to restore function, facilitate development, and provide hope for families of children with early developmental and mental health difficulties.

FOUNDERS OF THE RESEARCH INITIATIVE SYMPOSIUM

Tuesday, October 21
7:00 p.m. – 9:00 p.m. (open)

Sponsored by the AACAP Research Committee and supported by the Research Initiative

Chairs: Bennett L. Leventhal, MD and Neal D. Ryan, MD

Serotonin and Autism Spectrum Disorder: Clues to a 50 Year Old Mystery

Randy D. Blakely, PhD, is the Allan D. Bass Professor of Pharmacology and Psychiatry at Vanderbilt Brain Institute and Silvio O. Conte Center for Neuroscience Research at Vanderbilt University School of Medicine. His research focuses on the molecular neurobiology of neurotransmitter signaling at central and peripheral synapses, and the contribution made by membrane transporter proteins to synaptic neurotransmitter homeostasis. His work has uncovered multiple regulatory pathways that function in cells to control the surface expression and catalytic activity of transporter proteins, findings that have shed light on the synaptic impact of transporter mutations from human subjects afflicted with autism, ADHD, OCD, depression, cardiovascular, and gastrointestinal disorders. In turn, these studies have led to the creation of important animal models that impact brain and peripheral physiology and behavior and that now serve as important in vivo tests for mechanistic hypotheses as well as drug discovery. Having had, like many, personal experience with the devastating impact of neurobiologically-driven disorders on the lives of children, adults, and families, Dr. Blakely is gratified that his group’s contributions, often at a very basic level, have the potential to make a lasting contribution to our understanding of these conditions and their treatment.

Genetic Mechanisms Controlling the Development of the Forebrain

John L.R. Rubenstein, MD, PhD, is a Professor in the Department of Psychiatry at the University of California, San Francisco. As a postdoctoral fellow at the Pasteur Institute (1984–86; with Francois Jacob and J.F. Nicolas) he was one of the discoverers that antisense RNA can inhibit gene expression. He also developed retroviral vectors for gene delivery and fate mapping in mouse embryos. As a resident physician in child psychiatry specializing in autism at Stanford (1986–1991), Dr. Rubenstein devised a method to identify genes that are preferentially expressed in the embryonic forebrain, which led to the discovery of the Div2 and Tbr1 transcription factors. These genes served as entry points for his studies at UCSF; where, since 1991, he has performed genetic studies of mammalian forebrain development and human neuropsychiatric disorders. He has investigated: organization of the embryonic forebrain; forebrain patterning centers and their regulation of cortical organization; transcription factors and enhancers that control regional and cell-type specification of brain subdivisions; differentiation, migration and function of GABAergic interneurons; translational studies of treatment for epilepsy; and analyses of transcription factor mutations that may contribute to autism.

**The Future of Mental Health Services in the 21st Century**

**Wednesday, October 22**

11:15 a.m. – 12:45 p.m. (open)

Sponsored by the AACAP History and Archives Committee and supported by David W. Cline, MD and The Grove Foundation

Dinesh Bhugra, MA, MSc, MBBS, FRCP, FRCPE, FRCPsych, FFPH, MPhil, PhD, President-Elect of the World Psychiatric Association and Chair of the Mental Health Foundation

It is clear that mental health is an integral part of an individual’s well-being and has to be seen as such. Data from the United Kingdom (UK) show that economic burden related to poor mental health in the UK is significant—higher than cardiovascular diseases and cancer. Globalization, economic downturn, policy changes, and aging population all are significant factors affecting services. Dr. Bhugra presents an enquiry report from the Mental Health Foundation in the UK about the future of Mental Health Services. Topics include: integration between physical and mental health and social care and between primary care and secondary care; school-based programs; greater personalization of services and the engagement of patients and their care-takers and families as equal partners in decisions about care; future changes needed in training; and coordination of transitions across age groups. A need for mental health to be treated as a core public health issue, so that it will be as normal for everyone to look after their mental health as it is to look after their physical health and a public health workforce that sees mental health as one of its core responsibilities. This has major implications for child and adolescent psychiatry.

Professor Bhugra did his basic medical training in Pune, India, trained in psychiatry at Leicester, and then at the Maudsley Hospital London. He trained in sociology and medical anthropology. He was appointed Professor of Mental Health and Cultural Diversity in 2002. Professor Bhugra has been passionate about education and training and is a leader in developing work-place-based assessments for psychiatry residents. He has published widely in the field of cultural psychiatry, sexual dysfunction and service development. He has authored/co-authored over 350 scientific papers, chapters and 32 books. He is the Editor of the International Journal of Social Psychiatry, International Review of Psychiatry and International Journal of Culture and Mental Health.

He was elected the Dean of the Royal College of Psychiatrists (2003–2008) and then its President (2008–2011). In this role he was a key influencer of the government's mental health strategy and also its public health policy. He was appointed Chair of the Mental Health Foundation (2011–2014) and recently appointed President of the Foundation the third largest mental health charity in the UK.

**KARL MENNINGER, MD PLENARY**

**Grand Challenges for Child Mental Health**

**Wednesday, October 22**

4:15 p.m. – 6:00 p.m. (open)

Pamela Y. Collins, MD, MPH (invited), Associate Director for Special Populations and Director of the Office for Research on Disparities & Global Mental Health and the Office of Rural Mental Health Research at the National Institute of Mental Health, and Pamela Y. Collins, MD, MPH

Mental disorders are the leading cause of disability worldwide. Globally, suicide is the third leading cause of death among adolescents. Even in settings where infectious diseases remain a predominant contributor to mortality, mental disorders disproportionately disable children and young adults. As many as half of all mental health disorders start by age 14, but most cases go unrecognized and untreated, with serious consequences for mental health throughout life. Pamela Y. Collins, MD, MPH, identifies gaps and opportunities in global mental health research focused on children and adolescents. Using the framework of the Grand Challenges in Global Mental Health, she highlights opportunities for intersectoral intervention that can promote the mental health of young people.

Pamela Y. Collins, MD, MPH, is Associate Director for Special Populations and Director of the Office for Research on Disparities & Global Mental Health and the Office of Rural Mental Health Research at the National Institute of Mental Health (NIMH). Prior to joining NIMH, she was a professor in the departments of epidemiology and psychiatry at Columbia University where she conducted research on the mental health aspects of the AIDS epidemic, and through her research, worked to improve access to HIV prevention for people with severe mental illness as well as access to mental health care services for people with HIV domestically and internationally.

Dr. Collins’ research has focused on the HIV prevention needs of ethnic minority women with severe mental illnesses and the contribution of social stigma related to mental illness and ethnicity to women’s HIV risk in the United States. Internationally, she has conducted and evaluated training of healthcare providers in mental health, HIV/AIDS transmission, prevention, and counseling in Latin America and sub-Saharan Africa. Dr. Collins has served as a consultant to the Directorate of Mental Health in South Africa and as a member of its Task Team for Policy Guidelines on HIV/AIDS in Psychiatric Institutions. She serves on the Advisory Group for the Movement for Global Mental Health and is a member of the World Health Organization’s Mental Health Gap Action Programme Forum. With colleagues at NIMH, Dr. Collins directs the NIMH Collaborative Hubs for International Research on Mental Health. She was one of the editors of the 2011 Lancet series on Global Mental Health, she is a leader of the Grand Challenges in Global Mental Health initiative, and recently led the development of the 2013 PLoS Medicine Policy Forum series on global perspectives for integrating mental health.

The Karl Menninger, MD Plenary is supported by Ronald K. Filippi, MD, in honor of his mentor, Karl Menninger, MD.
PREVIEWS FROM THE PIPELINE

A Data Blitz Featuring Early Career Investigators

Thursday, October 23
8:30 a.m. – 11:30 a.m. (open)

Chairs: Tamara Vanderwal, MD, Thomas V. Fernandez, MD

Back for the third year in a row! Come see early career child and adolescent psychiatry investigators present cutting-edge research in a fast-paced, high-yield data blitz format. The Data Blitz features eight presentations that are given each in just seven minutes with three minutes of Q&A for each presenter. The Q&A will be moderated by a panel of well-established investigators and clinicians in child and adolescent psychiatry. Questions from the audience will be gathered via Twitter (a brief tutorial about how to use this social media tool will be provided). This program provides a unique venue for early career investigators to present data and receive feedback in a high-yield, fast-paced format that is specifically designed for new and developing data sets.

PERSPECTIVES MEET TED TALKS

(Clinical) Ideas Worth Spreading

Thursday, October 23
9:30 a.m. – 11:30 a.m. (open)

Chairs: Andrés Martin, MD, MPH, Laura M. Prager, MD

Presenters: Martina Cartwright, PhD, Cortlyn Brown, BA, Peter Daniolos, MD, Jeff Q. Bostic, MD, EdD, Joseph A. Shrand, MD

This TED Talk-style session is co-moderated by JAACP Editor-in-Chief Andrés Martin, MD, MPH, and Assistant Editor for Clinical Perspectives Laura M. Prager, MD. The session starts with a 5-minute introduction providing the background, context, and “ground rules” for an effective TED Talk (including adherence to tight time limits and minimalistic use of audio-visual supports). The authors of 5 recently published Clinical Perspectives then each present a 15-minute “TED Talk” of their respective articles. Each presentation is followed by 4 minutes of interactive and moderated discussion. There is one minute between speakers, allowing for a brief introduction. The session ends with overarching concluding remarks and an invitation for new submissions.

MEMBER FORUM

Crisis in the Emergency Department

Thursday, October 23
2:00 p.m. – 5:00 p.m. (open to all AACAP members)

Sponsored by the AACAP Physically Ill Child Committee

Chairs: Ruth Gerson, MD, Stephanie Hartselle, MD

Presenters: Mario Cappelli, PhD, Jeffrey Bridge, PhD, Lou Baptista, MD, Jennifer Havens, MD, Jeff Vanderploeg, PhD, Tim Marshall, LCSW, MSW, Mary Ann Murphy, MD, PhD, Bryan Shuy, Tom Chun, MD, Laura A. Vleugels, MD

This member forum examines the challenges faced in emergency child psychiatry. Presenters compare costs of a child comprehensive psychiatric emergency program with emergent psychiatric care in a pediatric emergency room, explore political partnerships and collaborative solutions, discuss emergency screening units, crisis care, and rapid mental health screening in pediatric emergency rooms, and talk about the patient experience and how families can advocate to improve emergency psychiatric care in a youth crisis services unit.

TOWN MEETINGS

Marijuana and the Child and Adolescent Psychiatrist in 2014

Thursday, October 23
11:45 a.m. – 1:15 p.m. (open to all AACAP members)

Sponsored by the AACAP Substance Abuse and Addiction Committee

Chair: Kevin M. Gray, MD

Presenters: David Atkinson, MD, Christopher J. Hammond, MD, Scott Krakower, DO, Catherine A. Martin, MD, Garrett Sparks, MD, Gregory Tau, MD, PhD

Amid evolving attitudes and policies regarding marijuana, and the emergence of potential cannabinoid therapeutics, child and adolescent psychiatrists may frequently be posed with clinical situations requiring knowledge and expertise on marijuana and cannabinoids. This Town Meeting provides an objective overview of the state of science on marijuana and cannabinoids, with particular focus on adolescents. A series of concise didactic presentations are followed by an open question and answer and discussion session.

Integration, Collaboration, and the Medical Home: Child and Adolescent Psychiatry and the Affordable Care Act

Saturday, October 25
11:45 a.m. – 1:15 p.m. (open to all AACAP members)

Chairs: J. Michael Houston, MD, D. Richard Martini, MD, Harsh K. Trivedi, MD, MBA, Martin E. Glasser, MD, John V. Campo, MD

The passage of the Patient Protection and Affordable Care Act of 2010 (ACA) brought with it the potential to radically alter the delivery of healthcare within the United States. The implementation of the ACA is shifting the way mental health care is structured, delivered, evaluated, and reimbursed. Now is the time to discover the changes underway across the country and how you can be part of the new model.

This Town Meeting focuses on the successes and challenges of child and adolescent psychiatrists (CAPs) joining and participating in a variety of medical home and collaborative care models with different settings across several key U.S. markets. Examples include consultative models in state supportive systems, integrated care through private healthcare systems, and collaborative care programs that support an academic mission. The emphasis is on letting AACAP members hear, examine, and discuss the importance and varied experiences of CAPs becoming involved in new payment, delivery, and quality models brought about by the Affordable Care Act.
PEDIATRIC CHILD AND ADOLESCENT PSYCHIATRY COLLABORATIVE

Behavioral Health in the Pediatric Clinic: A Case Conferencing Dialogue With Child Psychiatry

Thursday, October 23
5:00 p.m. – 9:00 p.m. (ticket)

Sponsored by the AACAP Local Arrangements Committee and San Diego Academy of Child & Adolescent Psychiatry and supported by Rady Children’s Hospital & Health Center, Vista Hill SmartCare Behavioral Health Consultation Service, San Diego County Behavioral Health Services, and San Diego Psychiatric Society Child and Adolescent Committee

Chairs: Mark Chenven, MD, Neha Bahadur, MD, Jeffrey K. Rowe, MD

Location: Rady Children’s Hospital San Diego

This interactive program pairs child and adolescent psychiatrists with primary care practitioners to provide guidance about the management of pediatric behavioral health problems seen in day-to-day clinical practice, such as ADHD, depression, anxiety, and autism spectrum disorders.

Participants discuss what to do and how to do it: recognizing at-risk kids/families; formulating intervention plans; setting up consultative/collaborative supports; knowing how and when to prescribe (or not); knowing when and where to refer; monitoring treatment response; and managing risk.

Programming includes a combination of presentations, case-driven small group discussion, and expert commentary from local child and adolescent psychiatrists. Interested in collaborating with primary care physicians at home? Come see how it works in San Diego and take home a model for integrative education. Registration fee is $65, transportation and dinner are included, and child and adolescent psychiatrists and pediatricians are welcomed to attend.

PRESIDENTIAL INTERVIEW

Paramjit T. Joshi, MD, Interviews Maryland Pao, MD, Clinical Director and Deputy Scientific Director of the National Institute of Mental Health Intramural Research Program at the National Institutes of Health

Friday, October 24
11:45 a.m. – 1:15 p.m. (open)

Maryland Pao, MD, is the Clinical Director and Deputy Scientific Director of the National Institute of Mental Health Intramural Research Program at the National Institutes of Health. She serves as Chief of the Psychiatry Consultation Liaison Service in the Mark O. Hatfield Clinical Research Center. A native of Bethesda, MD, she attended Wellesley College before completing a BA/MD program at Johns Hopkins University School of Medicine. She completed pediatric and psychiatric residency training as well as a child and adolescent psychiatry fellowship at Johns Hopkins Hospital. She is board certified in pediatrics, general psychiatry, child and adolescent psychiatry, and psychosomatic medicine. She is interested in training the next generation of clinical researchers in adult and child psychiatry.

Dr. Pao’s research has encompassed psychopharmacologic and psychosocial studies of cancer, human immunodeficiency virus, as well as pain management and risk of suicide in medically ill children. She has published more than 70 research articles and chapters, and co-edited the *Quick Reference for Pediatric Oncology Clinicians: The Psychiatric and Psychological Dimensions of Pediatric Cancer Symptom Management* (2009) and *Voicing My Choices™* (2012), an advance care planning guide for adolescents and young adults. She is on the Clinical Faculty at Georgetown University, George Washington University, and at Johns Hopkins University Schools of Medicine. She has been a member for AACAP since 1990 and a Fellow since 2008. She has served on the HIV Issues Committee as well as the Physically Ill Child Committee which she has co-chaired since 2006. She is the 2012 recipient of the AACAP Simon Wile Leadership in Consultation Award.
Children and adolescents in developing countries are exposed to war, trauma, and conflicts, yet there are limited country resources to provide them with mental health support. Interventions are needed to reach the largest number of children possible, and while many international organizations offer “expertise” in psychosocial and mental health support, the evidence for such programming is, at best, limited. There is an urgent need to promote and conduct research at a local level using sound scientific methods in order to build evidence for what works and what does not.

John A. Fayyad, MD, draws on his experience in researching the impact of 3 separate wars on child mental health, illustrating with data from prospective studies as well as controlled interventions, and highlighting challenges encountered and unique opportunities for the advancement of knowledge emanating from real world settings.

John A. Fayyad received his MD in 1985 and is boarded in both general psychiatry (1988) and child and adolescent psychiatry (1990). After practicing in the United States for several years, he returned to Lebanon where he is Associate Professor of Clinical Psychiatry at the University of Balamand, and Faculty of Medicine and Medical Sciences and the Department of Psychiatry and Clinical Psychology at St. George Hospital University Medical Center. He is also a researcher and a member of the Institute for Development Research, Advocacy and Applied Care (IDRAAC), an NGO specialized in mental health.

Dr. Fayyad is the Secretary General of the Eastern Mediterranean Association of Child and Adolescent Psychiatry and Allied Professions (EMACAPAP) and is a Vice President of the International Association for Child and Adolescent Psychiatry and Allied Professions (IACAPAP).

Dr. Fayyad’s research interests include the epidemiology of psychiatric disorders, the effects of war and trauma on children, pathways to resilience, and community interventions.

The Lawrence A. Stone, MD Plenary is named in honor of AACAP Past President and Life Fellow, Lawrence A. Stone, MD. It recognizes his leadership, vision, and passion to the mission of AACAP. Mrs. Marnette Stone endowed this plenary in loving tribute to her husband.
Join other AACAP members, and family and youth advocates, on April 23-24, 2015, to promote child and adolescent psychiatry and children’s mental health issues on Capitol Hill.

During this event, you will join fellow members, residents, family members, and youth as you learn about the legislative process, develop relationships with legislators, and discuss the issues that most affect your patients and practice. The AACAP Department of Government Affairs will guide you on what to say and do during your meeting, and provide you with the policy materials to shape your message.

Institute 2: Family-Based Integrated Care in Child Psychiatry: The Evidence Base and Practical Applications (ticket)
Chairs: Kristina Schwerin, MD and Michael Rimm, MD
Presenters: Douglas A. Kramer, MD, MS, Allan Josephson, MD, Richard Wendel, PhD, John Sargent, MD, Judith Ann Cohen, MD, James Lock, MD, PhD, Margaret Cary, MD, MPH, Michelle Rickerby, MD, Thomas A. Roesler, MD

Come be inspired and empowered to use family assessments and interventions regularly as part of your practice. Current research makes it apparent that family interventions are a significant part of most evidence-based practices in child and adolescent mental health. Yet, many child and adolescent psychiatrists practice in settings where there is insufficient time to provide family therapy in the traditional sense. The AACPAP Family Committee has gathered seasoned experts in the area of family theory, family assessment, family interventions, and family training to present material that greatly enhances the psychiatrist's knowledge of family skills and heighten their ability to implement family therapy in their usual practice settings. Participants learn about the evolution of family intervention, explore specific successful evidence-based practices, learn basic skills in family assessment and intervention, delve into specific family techniques applicable to a variety of common diagnostic categories, and are empowered to use a family-centered approach as part of their standard practice.

Sponsored by the AACPAP Family Committee

Thursday, October 23
8:00 a.m. – 4:00 p.m.

Institute 4: Neurodevelopmental Disorder Associated With Prenatal Alcohol Exposure: Etiology, Diagnosis, Treatment, and Prevention in an Era of DSM-5 (ticket)
Chair: Susan D. Rich, MD, MPH
Presenters: Kathleen K. Sulik, PhD, Sarah N. Mattson, PhD, Lawrence Smith, LCSW-C, Natalie Novick Brown, PhD, Kieran D. O'Malley, MD, Steven A. Carreras, PhD, LCSW-C

Neurodevelopmental Disorder Associated with Prenatal Alcohol Exposure (ND-PAE) describes the wide range of neurocognitive, neurodevelopmental, and neurobehavioral problems associated with prenatal alcohol exposure. These lifelong effects can occur as early as the first few weeks post conception—before most women know they are pregnant—making education a significant part of prevention. This Institute provides information on alcohol teratology and the importance of vulnerability prior to pregnancy recognition, explains how to diagnose ND-PAE, provides U.S. and worldwide epidemiologic surveillance data, discusses multidisciplinary treatment in collaboration with medical and allied health professionals, shares clinical insights on psychopharmacologic management, provides insights into secondary disabilities and complex neurodevelopmental formulations, and underscores the important role that knowledgeable child and adolescent psychiatrists can play in early childhood intervention and primary prevention. Increased understanding, improved coordination of care, and psychopharmacologic treatments can improve clinical outcomes for these individuals.
**Thursday, October 23**

8:00 a.m. – 5:30 p.m.

**Institute 5: Lifelong Learning Institute: Clinical Practice Update and Lifelong Learning**

**Module 11: Relevant Updates for Child and Adolescent Psychiatrists**

Sponsored by the AACAP Lifelong Learning Committee

**Friday, October 24**

8:00 a.m. – 3:30 p.m.

**Institute 6: Early Recognition and Intervention for Youth at High Risk for Bipolar Disorder**

**Chair:** Kiki Chang, MD

**Presenters:** Eric Youngstrom, PhD, David J. Miklowitz, PhD, Tina Goldstein, PhD, Amy E. West, PhD, Meghan E. Howe, LCSW, Melissa P. DelBello, MD, MS, Manpreet K. Singh, MD

Bipolar disorder (BD) is a chronic, debilitating illness and children with BD have a more severe course of illness with high relapse, recurrence, psychosocial impairment, substance use, and suicide. Early identification and recognition of symptoms in youth leads to early intervention and prevention efforts. Participants learn to recognize early symptoms of mood disorders in youth and to administer psychotherapeutic and pharmacologic interventions that are effective for those at risk for BD. A novel, step-by-step approach to identification and assessment of risk level is presented; the role of family therapy in treating putatively prodromal youth is considered; cognitive behavioral therapy and Interpersonal and Social Rhythm Therapy are explored; the concept of mindfulness as it applies to stress reduction in youth with mood disorders is presented; pharmacotherapeutic and pharmacologic interventions are discussed; and an overview of the neutral structures and circuits involved in mood regulation and dysregulation is presented.

**Sponsored by the AACAP Child Maltreatment and Violence Committee**

**Friday, October 24**

8:00 a.m. – 5:00 p.m.

**Institute 7: Parent–Child Interaction Therapy: Treatment Components, Evidence Base, Adaptations, and Training Guidelines**

**Chair:** Regina Bussing, MD, MSHS

**Presenters:** Rhea M. Chase, PhD, Emma Girard, PsyD, Jonathan S. Comer, PhD

Child and adolescent psychiatrists see increasing numbers of preschoolers with disruptive behaviors and ADHD symptoms. If untreated, these preschoolers are at high risk for adverse psychosocial outcomes. Effective early interventions can greatly improve or even normalize the developmental trajectory of these children. Presenters familiarize attendees with one of the evidence-based treatments for preschoolers, Parent Child Interaction Therapy (PCIT). Participants increase their understanding of PCIT’s treatment components and its use with young children exhibiting disruptive behavior disorders and for families with neglect or abuse histories. Other areas covered are: assessment strategies, skills the parent must learn, coaching principles, PCIT adaptations, limitations in use, and the necessary training components for PCIT therapists. Child and adolescent psychiatrists with knowledge of PCIT greatly enhance their ability to develop effective treatment plans for very young children and can effectively advocate for quality interventions for high-risk preschoolers.

**Welcome Reception**

**Wednesday, October 22**

6:15 p.m.–8:15 p.m. (open)

**USS MIDWAY** Navy Pier, 910 North Harbor Drive

All Aboard! Meet your colleagues at the Welcome Reception on the decks of the USS Midway. Once a home-away-from home for more than 225,000 sailors, the USS Midway is the longest serving US Navy aircraft carrier of the twentieth century; a living piece of American history.

**Your mission:** Dance and mingle under the stars and discover this legendary city at sea! Climb into cockpits of naval aircrafts on the 4-acre flight deck and test your own pilot skills in flight simulators in the hanger bay. Tours led by knowledgeable docents are available and the flight deck and hangar bays are wheelchair accessible. Casual dress and flat-heeled shoes are recommended. And don’t miss AACAP’s own, Pink Freud and the Transitional Objects!

Badges are required for entry for all adults; children are welcome and do not require badges.
Saturday, October 25
7:30 a.m. – 4:45 p.m.
Institute 8: Motivational Interviewing: Preparing Youth for Change  [ticket]
Chair: Oscar Gary Bukstein, MD, MPH
Presenters: Alessandra N. Kazura, MD, Christopher J. Hammond, MD, Margaret Benningfield, MD, Garrett Sparks, MD
Motivational Interviewing (MI) is a client-centered, collaborative, and directive treatment approach with a proven track record of enhancing a patient’s motivation to change. Developed and tested over the past 30 years, MI has been found effective when dealing with adolescent addiction, medical compliance, or public health practices. Participants receive MI training through a combination of didactic presentations, video examples, and exercises, and practice the use of basic MI techniques. Topics presented are the spirit of MI—collaboration, self motivation, and autonomy; OARS—open-ended questions, affirmations, reflective listening, and summaries; Rolling with Resistance; research; Change Talk; developing a change plan; consolidating client commitment; and integrating MI with other interventions. Participants will leave able to effectively use MI techniques and develop a change plan for their patients.

Saturday, October 25
8:30 a.m. – 4:00 p.m.
Institute 9: Fundamentals of Practical Pediatric Psychopharmacology for the Primary Care Clinician  [ticket]
Chair: Adelaide S. Robb, MD
Discussant: Jeffrey G. Kaufman, MD
Presenters: John T. Walkup, MD, Christopher J. Kratochvil, MD, Timothy E. Wilens, MD
Many pediatricians and primary care physicians have a knowledge gap in training and little experience on the use of psychotropics in children and adolescents. With the prevalence of mental disorders in the pediatric population, this lack of knowledge and training makes pediatricians and primary care physicians ill-prepared to recognize and treat common childhood psychiatric disorders. This Institute provides practical information to these clinicians on the use of psychotropic medications in their practices. Presentations include discussions of clinically relevant aspects of pediatric psychopharmacology for the treatment of ADHD, depression, and anxiety disorders. Discussions focus on the "basics" of assessment, medication selection, initiation, titration, and management. Additionally, management of medications used in the treatment of bipolar disorder, pervasive developmental disorders, and aggression are addressed. Participants gain knowledge in the application of practical clinical information pertaining to pediatric psychopharmacology and how to responsibly use psychotropics for common pediatric mental health disorders.

You are making 2014 another extraordinary fundraising year! Here’s a few ways you can consider making a donation to help us do more for you, so you can do more to improve the lives of children and adolescents with mental illness.

→ **Hope Maker**
This year we launched the **Hope Maker** initiative. Hope Makers make a recurring monthly donation on our website. Here’s why this is a game-changer:

→ **Becoming a Hope Maker is Easy!**
It only takes a moment to set up a recurring monthly donation from any computer or tablet.

→ **Becoming a Hope Maker is Convenient!**
Support your favorite AACAP initiatives automatically.

→ **Becoming a Hope Maker Allows You to Maximize Your Philanthropy!**
Increase your giving joyfully by donating smaller amounts more often.

→ **Directing Your Donation**
You told us you wanted more control over where your donation goes. We listened! AACAP now provides you many (and new) ways to target your gift:

→ **Where Most Needed**. A donation “Where Most Needed” supports all of AACAP’s initiatives and gives us the greatest flexibility to direct your contribution where it will have the biggest impact.

→ **Advocacy Education**. Support families traveling to Washington, DC to learn about the political process.

→ **International Fund**. Foster global collaboration and integration by supporting travel grants for international attendees to the Annual Meeting.

→ **Life Members Fund**. Support medical students and residents traveling to the Annual Meeting to be mentored by our most experienced members.

→ **Medical Student Fellowships**. Reduce the workforce deficit by investing in medical students pursuing child and adolescent psychiatry.

→ **Research**. Invest in promising new researchers.

→ **And many others!**

→ **Peer-to-Peer Fundraising**
Were you aware how much your passion for helping children with mental illness inspires others? Leverage that passion by creating a **Peer-to-Peer** (P2P) fundraising page. Help expand the message of how AACAP—you—change the lives of children, and invite your friends, family, and colleagues to invest in programs you know make a difference. Email development@aacap.org to find out more.

→ **1953 Society**
And finally, I invite you to consider becoming a member of the **1953 Society**. It’s simple. Most people will name AACAP in their will. There are other estate gifts you can make. In joining, you become part of a community of forward-looking philanthropists, providing permanent financial stability for your Academy’s future. In joining, you create a personal and permanent legacy. To learn more, visit www.aacap.org/1953_Society.

Thank You for Making a Difference

DISCOVER. EXPERIENCE. GET INVOLVED.

All attendees (members and non-members) are highly encouraged to carve out time to DISCOVER and learn about various AACAP programs, products, and events. It’s time to think beyond the booth! In an effort to maximize efficiency, we’re scheduling specific times to best highlight unique AACAP programs—especially those that need YOUR support to succeed. We’re focusing on topics covering advocacy, education, development, and media. It’s your opportunity to EXPERIENCE first-hand, how your efforts, working in conjunction with various AACAP committees and departments, can help make children’s mental health a priority.

Keep an eye out for email and the final program schedule for specific location, dates, and times.
ATTENTION EXHIBITORS AND ADVERTISERS!

You are invited to exhibit or advertise at the 61st Annual Meeting, the world’s largest gathering place for leaders in the field of child and adolescent psychiatry, children’s mental health, and other allied disciplines.

AACAP encourages all organizations committed to children’s mental health to support the clinical practice and science of child and adolescent psychiatry through our Annual Meeting. We are anticipating attendance of approximately 4,000 medical professionals in San Diego.

Take This Opportunity To...

• Meet with the largest gathering of child and adolescent psychiatrists in the world
• Build brand awareness
• Answer inquiries about your company/organization
• Promote new products and technology
• Obtain direct orders for your company/organization
• Recruit for your hospital or practice
• Gain client referrals
• Support AACAP

Save money on your registration!

AACAP members and attendees who refer a new Annual Meeting exhibitor can receive a $100 discount on their 61st Annual Meeting registration. All referrals must be first-time AACAP exhibitors and must purchase a booth for the 61st Annual Meeting.

Exhibitors can connect with more than 4,000 child and adolescent psychiatrists and other medical professionals or advertise in several Annual Meeting publications.

To review an Invitation to Exhibit or to learn more about what exhibit and advertising opportunities are available, visit www.aacap.org/exhibits/2014.

LIFE MEMBERS EVENTS

**Mentees, Mentors, and What Works Best: An Event for Medical Students, Residents, and Child Fellows**
Tuesday, October 21  
4:30 p.m. – 6:00 p.m. (open)

Sponsored by the AACAP Life Members Committee, Membership Committee, and Committee on Medical Students and Residents

This informal mentoring session provides medical students, residents, and child fellows an opportunity to meet with Life Members. Attendees can ask questions and discuss topics from career choices to life experiences and everything in between.

**Life Members Lounge**
Wednesday, October 22 – Saturday, October 25

The Life Members Lounge is a casual meeting place for Owls to converse and relax.

**Clinical Perspectives 25: Life Members Wisdom**
Clinical Perspectives: Rocks of Ages in the Sands of Time: Clinical Wisdom Across Generations of Child and Adolescent Psychiatry
Thursday, October 23  
2:00 p.m. – 5:00 p.m. (open)

Sponsored by the AACAP Life Members Committee

Chair: Douglas A. Kramer, MD, MS  
Discussant: Margaret Cary, MD, MPH

Presenters: Jack McDermott, MD, Allan Josephson, MD, Barry Nurcombe, FRANZCP, Peter Lake, MD, Lenore Terr, MD, Stuart A. Copans, MD, Jack C. Westman, MD

This Clinical Perspectives discusses clinical wisdom across generations of child and adolescent psychiatry. Topics include child and family therapy, family therapy and family intervention, the biopsychosocial model, personal learning experiences, and a wholistic view of child and adolescent psychiatry.

**Life Members Reception and Dinner**
Thursday, October 23  
6:00 p.m. – 8:30 p.m. (ticket)

Sally’s Seafood on the Water at the Manchester Grand Hyatt

This exclusive event is for Life Members to enjoy the company of friends and colleagues while enjoying the beautiful scenery of the San Diego Bay.

Remember, if you donate $400 or more to the Life Members Fund by October 31, you will receive a limited edition 61st Annual Meeting owl pin!

**Stay Involved**
Visit [www.aacap.org/LifeMembers](http://www.aacap.org/LifeMembers) for all Owl news!

**Keep Changing the Face of Child and Adolescent Psychiatry**

Since 2010, the Life Members Fund has made an investment in 54 residents and 46 medical students through its two grant awards, Education Outreach for Child and Adolescent Psychiatry Residents and Mentorship Grants for Medical Students. 100 lives you impacted, who are and will become the next generation of child and adolescent psychiatrists.

For 2014, the Life Members Committee approved 32 new investments—15 medical students and 17 residents—who will attend the San Diego meeting because of you! So, we can now say you’ve incubated 100 next generation child and adolescent psychiatrists. This is what legacy means!

The achievement to date is remarkable. But we must continue to work together to keep this number growing. We’re at a time of great healthcare change and we must continue to help solve the problems of the future while remembering lessons of the past.

**Become a Member**

AACAP members qualify as Life Members when their age (min. 65) and years of membership total 98.

To learn more about Life Member activities, grant awards, membership, the Owl Newsletter, or to donate, please contact Molly O’Neill Moir at mmoir@aacap.org.

**AACAP-NIDA Career Development Award in Substance Abuse Research (K12) Information Session** *(open)*

AACAP is gearing up for another round of scholar recruitment for the AACAP-NIDA Physician Scientist Program in Substance Abuse K12 award sponsored by the National Institute on Drug Abuse. The AACAP K12 provides up to four years of salary support and mentored addiction research training for qualified child and adolescent psychiatrists who are committed to establishing academic careers as addiction/mental health researchers. Interested applicants and prospective mentors are invited to attend this information session to learn more about potential timelines and the application process, meet program faculty and administrators, and hear from previous K12 award recipients.

Sponsored by the AACAP Early Career Psychiatrist Committee and Early Career Psychiatrist Committee

Thursday, October 23
8:00 a.m. – 10:00 a.m.
**Early Career Psychiatrists: Career Development Forum** *(open)*

This forum educates ECPs about the importance of mentorship, encourages them to reflect on their own mentorship needs, and provides them with a chance to interact with highly regarded child and adolescent psychiatrists and peers who represent a diverse array of professional careers within the field. As a result, ECPs form new connections, make greater use of mentorship resources, and consider becoming more engaged in ECP programming.

Sponsored by the AACAP Early Career Psychiatrist Committee

Thursday, October 23
6:00 p.m. – 7:30 p.m.
**Early Career Psychiatrist Meet and Greet** *(open)*

The ECP Committee invites early career psychiatrists to attend the ECP Meet and Greet. Join fellow early career psychiatrists for food, drinks, and a chance to network with peers in an informal setting.

Sponsored by the AACAP Early Career Psychiatrist Committee and supported by American Professional Agency, Inc.

Friday, October 24
8:30 a.m. – 11:30 a.m.
**Member Services Forum 7: Successful Transition to Practice for Early Career Psychiatrists** *(open to all AACAP members)*

This Member Services Forum provides child and adolescent psychiatry fellows and ECPs an opportunity to learn about common challenges that the transition from training to practice may present. Attendees gain an understanding of the range of career options and professional roles available to child and adolescent psychiatrists; strategies for starting and developing an office-based practice; negotiation skills useful in academic settings and private practice; and ethical issues related to career development.

Sponsored by the AACAP Early Career Psychiatrist Committee
AACAP CATCHERS IN THE RYE HUMANITARIAN AWARD

Gordon and Sharon Smith

The AACAP Catchers in the Rye Humanitarian Award is awarded by the AACAP Executive Committee. It was established in 1990 to honor those who have made significant contributions to society through support of child and adolescent psychiatry. AACAP is honored to present the 2014 Catchers in the Rye Humanitarian Award to Gordon and Sharon Smith.

Gordon Smith is a former two-term Republican Senator from Oregon, and current President and CEO of the National Association of Broadcasters (NAB). In 2004 Gordon and Sharon’s son, Garrett Lee Smith, committed suicide. In Garrett’s death came a call to action. As a result of their tragic loss, Gordon and Sharon Smith have both been tireless advocates for suicide prevention and mental health awareness. The Garrett Lee Smith Memorial Act was authorized and passed in 2004, which grants funds to college campuses for suicide prevention programs.

Gordon Smith authored, “Remembering Garrett” in 2006, a straightforward, simply written account of Garrett’s struggle and the nearly unbearable heartbreak his family endures. Sharon and Gordon Smith established the “Gordon and Sharon Smith New Freedom Award” in 2009 with National Alliance on Mental Illness (NAMI) Oregon to honor their mental health advocacy efforts. Sharon Smith previously served on the board of the Columbia Teen Screen program. In July 2013, with support and funding from the members of the National Association of Broadcasters, Gordon and Sharon Smith launched the OK2TALK media campaign.
**OPPORTUNITIES FOR MEDICAL STUDENTS AND RESIDENTS**

**Monitors**

Medical Students, Residents, and Trainees Attend the Annual Meeting for FREE!

Register as a Monitor and we’ll waive your general registration fee.

Monitors assist AACAP staff in running the meeting by checking badges and tickets to confirm attendance, assist speakers as needed, and distribute and collect evaluation forms and/or other materials that the speaker provides. In return for working as a monitor for either one full day or two half days, monitors receive a complimentary registration for the meeting in addition to half-priced tickets for most ticketed events.

**Reasons to become a Monitor:**

- FREE registration for all residents, trainees, and medical students
- Six days of scientific content given by the top experts in the field
- Customized programming, including a mentorship program
- Networking opportunities with presenters and peers

**Members-Only Benefit!**

Monitor Registration opens August 4 for AACAP members only; nonmember registration opens one week later on August 11. All Monitors choose their own assignments through the registration system. Increase your chances of getting the Monitor assignment that you want by becoming an AACAP member today!

For more information about the Monitor Program, and to sign up to be a Monitor, visit: www.aacap.org/monitors/2014.

2:00 p.m. – 5:00 p.m.

**Member Services Forum 5: Effective State-level Mental Health Advocacy and Coalition Building for ROCAPs: The CAL-ACAP Experience (open to all AACAP members)**
The need for child and adolescent psychiatrists to have a voice in the shaping of public policy is abundantly clear. Organized advocacy efforts can have a great impact on shaping policy and succeed in building a more collaborative mental health system. Utilizing the elements described in this workshop, ROCAPs have the unique opportunity to mobilize their members for effective state-level advocacy. Techniques to educate and build relationships with legislators are explored, methods to engage members in the mental health advocacy activities are outlined, and the importance of involving mental health organizations in the effort are discussed.

**Friday, October 24**
8:30 a.m. – 11:30 a.m.

**Member Services Forum 6: Beyond Advocacy Day: Bringing Advocacy Home (open to all AACAP members)**
Access to mental health care for families and youth remains a challenge despite over two decades of dedicated efforts to address workforce shortage issues, lessen stigma, and achieve parity. Child and adolescent psychiatrists, working together with families, can have a positive affect on the decision making of legislators. Participants learn about initiating advocacy efforts at the local and state levels; learn the value of family members speaking directly about their personal challenges; hear from different states about advocacy efforts; and gain an understanding of the core principles of legislative advocacy and how to begin their own local advocacy efforts.

During the Training and Education Luncheon, attendees receive training updates. Canro Award Recipient David T. Feinberg, MD, MPH, will present an Honors Presentation titled, “Healing by Embedding Psychiatry.”

AACAP is again offering a FREE luncheon ticket to every child and adolescent psychiatry residency program director that enrolls all of his or her fellows as AACAP members by September 15 and joins the 100% Club.

Free tickets are not transferrable to other faculty.

AACAP’S 61ST Annual Meeting
AACAP’S OPERATING PRINCIPLES FOR EXTRAMURAL SUPPORT OF AACAP MEETINGS AND RELATED ACTIVITIES

Bennett L. Leventhal, MD
AACAP Member Meeting Manager

AACAP has long been a leader in managing disclosures and potential conflicts of interest that can and do interfere with objective conduct of science and clinical practice. It has long been important to AACAP and the Program Committee, as we develop and present our meetings, to keep content and presentations independent from sources of funding or other support. For more than 10 years, AACAP has managed its meetings under the Operating Principles for Extramural Support. The Principles represent a dynamic process designed to serve our patients and profession, and maintain our scientific and clinical integrity. As a result, your awareness and participation are essential to their success. We hope you will take pride in our Principles and your participation in the process. For your reference, the full document is available online at www.aacap.org/AnnualMeeting/2014.

How You Can Help?

• If you know about an event held by a pharmaceutical company during the week of the Annual Meeting that is not listed in the Program Book, please contact me or Jill Brafford, Director of Meetings and CME, at 202.966.7719 or jbrafford@aacap.org.

• Let AACAP know if the following disclosure policies are not being adhered to. Contact the session Monitor and note these on your evaluation forms:
  • All individuals presenting at AACAP meetings (including presenters, officers, discussants, etc.) must disclose any conflicts of interest. This obligation is for all individuals who make public comment at any AACAP meeting.
  • When an off-label, investigational or experimental use of a medication or other product is the subject of a presentation or discussion, disclosure of this status should be clear to the audience, both verbally and in writing.

While the Principles is an extensive document that covers many details related to the Annual Meeting, some of the most critical points are:

• Commercial enterprises (including pharmaceutical companies) and other entities related to the AACAP Annual Meeting, agree to not have independent presentations during the week of the Annual Meeting at the host hotel or elsewhere in the meeting city.

• No corporate logos may be displayed outside the exhibit hall.

• No press conferences or briefings may be held prior to presentations at AACAP meetings nor can sponsors represent AACAP meeting content without specific written permission from AACAP.

MAINTENANCE OF CERTIFICATION (MOC)

Need to recertify soon? Just want to make sure that you’re on the right track with your MOC requirements? All of the opportunities below give you a chance to talk to experts, ask questions, and learn from your colleagues. Want more information before you get to San Diego? LOCAL FAVORITES
The Local Arrangements Committee wants you to feel at home while visiting San Diego. Here are some local favorite activities to explore!

Thanks to Nicodemus Watts, MD, of the Local Arrangements Committee for these suggestions!

- The Headquarters is within walking distance of the Annual Meeting hotels and a great spot to grab lunch during the Meeting! The Headquarters at Seaport District, famous for its eclectic blend of classically inspired architectural styles and rich history, the iconic former headquarters to the San Diego Police Department, is Seaport District’s most exciting new retail destination. This artfully designed open-air lifestyle center is home to an exclusive collection of specialty shops, restaurants, and entertainment venues catering to San Diego’s most discerning residents and visitors.

- Cabrillo National Monument has spectacular views of the entire San Diego metropolitan area as well as Coronado Island. While there, you can explore the beautiful tide pools and hike all the way down to the shoreline. There is fascinating military history and a neat lighthouse museum!

- The Coronado Island beaches are beautiful expanses with a relaxed atmosphere.

- Balboa Park has wonderful trails, a serene atmosphere, and plenty of sightseeing! Having a meal on the patio of the Prado Restaurant is especially enjoyable.

- Little Italy is a vibrant area with abundant restaurants, wine bars, and cafés. There is also a nice selection of live music in this area.

- I love to walk through the Bankers Hill neighborhood. It features several hiking trails/open spaces as well as the Spruce Street Suspension Bridge; built in 1918, it is a fun hidden gem!

For more information on local favorites, stop by the Hospitality Desk during the Annual Meeting. See page 16 for more details.

NURSING MOTHERS ROOM
During the Annual Meeting, nursing mothers or those with young children have a safe and relaxing space to care for their children in the Nursing Mothers Room. The area is private so mothers can spend a quiet moment with their babies or young children. This area is open throughout the day from October 21–25. See the onsite Program Book for the location.

CME CREDITS
The American Academy of Child and Adolescent Psychiatry is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

SAN DIEGO ATTRACTIONS

Here are just a couple of highlights of what San Diego has to offer. For more detailed descriptions, along with a longer list of activities, visit www.aacap.org/AnnualMeeting/2014.

Balboa Park is a San Diego must-see, just minutes from downtown, and ranked as one of the Best Parks in the World. The Park is home to 15 major museums, several performing arts venues, lovely gardens, and many other cultural and recreational attractions, including the San Diego Zoo. With a variety of cultural institutions laid out among its 1,200 beautiful and lushly planted acres, Balboa Park is the nation’s largest urban cultural park. If you are planning on visiting Balboa Park over the course of a few days, take advantage of the Passport to Balboa Park which includes one admission to 14 museums over 7 consecutive days. If you only have a day, visit the Visitors Center in Balboa Park for a Stay-for-the-Day pass that includes admission to 5 of the museums in one day.

Founded in 1916, the San Diego Zoo has been an icon in San Diego for nearly 100 years. Located adjacent to downtown San Diego in Balboa Park, the Zoo is 100 acres in size and is home to more than 4,000 animals representing more than 800 species from around the world.

The USS Midway Museum is a real aircraft carrier and a once-in-a-lifetime memory for everyone! Explore the USS Midway, the longest-serving U.S. Navy aircraft carrier of the 20th century! Imagine living aboard a floating city at sea with 4,500 shipmates, by exploring galleys, officer’s country, sleeping quarters and the 4 acre flight deck. Admission includes a self-guided audio tour to over 60 locations from the engine room to control tower, narrated by Midway sailors who lived or worked in each. Don’t forget to join us on the USS Midway for the Welcome Reception on Wednesday night (included in the cost of registration)
Be Sure to Take Advantage of All of the Events Included in the General Registration Fee!

Included in the general registration fee are:
- Clinical Case Conferences
- Clinical Perspectives
- Exhibit Hall Access
- Media Theatre
- Member Fora
- Member Services Fora
- New Research Poster Sessions

Early-Bird Registration Deadline: September 15
REGISTRATION INFORMATION

Registration Types
Spouse/Significant Other: Only one spouse/significant other is allowed to register with each full registrant and may not be an AACAP member or in a related profession. THE SPOUSE/SIGNIFICANT OTHER MUST RESIDE IN THE SAME HOUSEHOLD AS THE REGISTRANT. CME credit is not provided and spouse registrants may not attend ticketed events. Spouse registrants may attend social activities, participate in open evening events, watch evening Media Theatre sessions, and access the Exhibit Hall.

Medical Students: Membership with AACAP is FREE for medical students. Upon registering, you will automatically be signed up as a member of AACAP. You are required to present verification of enrollment in a medical school program before November 29, 2014; otherwise membership will be withdrawn from AACAP. If registering onsite, you will be required to provide a photocopy ID or letter from your Program Director. Students may register for ticketed events at half price the member fee.

Residents: Non-Member residents must attach a photocopy ID or letter from your Program Director to your registration form to qualify for a reduced registration fee. If registering onsite, you will be required to provide a photocopy ID or letter from your Program Director. Residents may register for ticketed events at half price the member or non-member fee.

Monitors: Students and residents qualify to earn free registration by volunteering as monitors for one full day. To apply for a position as a monitor, visit www.aacap.org/monitors/2014.

Presenters: All presenters are required to register for the full meeting or a single day. Presenters who do not register will not be permitted to attend the meeting. All members of AACAP must pay member registration rates, regardless of presenter status. Non-member presenters who are psychiatrists will pay the member registration rate. Non-member presenters who are not psychiatrists may register for the reduced rate indicated on the registration form.

International Attendees: Please consider delivery time when registering for the meeting. Registering online is encouraged to expedite your registration.

Exhibitors: Up to two “Exhibit Only” non-transferable badges are included in the purchase of booth space. Contact your company’s Exhibits Manager to arrange for additional registration or badges. You can also contact AACAP’s Exhibits Manager at 202.966.9518 or exhibits@aacap.org for more information.

Group Registration: AACAP does not provide discounts for group registrations. If you would like to register or pay for multiple attendees, contact the Office of the Registrar at 202.966.7300, ext. 2005 or registrar@aacap.org.

AACAP ETHICS REQUIREMENT
Programs marked with ETHICS indicate sessions that fulfill AACAP’s ethics requirement. AACAP members are required to do one hour of ethics study every two years that can include reading the AACAP Code of Ethics or Conflict of Interest policies or information on the AACAP Information Center, AACAP News or JAACAP ethics articles, or attending Annual Meeting or Board Review Course ethics presentations (at the meeting, audio recording, on website). This is not a CME requirement. To prove that they have done the required time, members must simply answer the ethics question on the membership dues renewal notice. The ethics activity must be related to children and adolescents and it cannot be risk management. This requirement reflects the importance of ethics to the child and adolescent psychiatry practice. For more information, visit www.aacap.org/ethics.

ARE YOU AN AUTHOR?
ARE YOU A PUBLISHER?
Don’t miss this incredible opportunity for promotion!
Promote your book at this year’s Annual Meeting! Join us at our “Meet the Author” booth in the Exhibit Hall. All attendees are welcomed to participate. Sign up for a one-hour time slot to promote your book. We include a 30-word description on a flyer distributed to all attendees as well as a listing in the Annual Meeting Program Book.

Limited time slots are available beginning on Wednesday, October 22 and ending on Friday, October 24. Be the first author to sign up!

Price: $300/hour for each book, which defrays costs of booth rental.
For more information, visit www.aacap.org/exhibits/2014 or contact Kate Bailey, AACAP’s Meetings and Exhibits Manager, at 202.968.9518 or exhibits@aacap.org.
